No two nations in the world are as integrated, economically and socially, as are the United States and Canada. We share geography, values and the largest unprotected border in the world. Regardless of this close friendship, our two countries are on a slow-motion collision course—with each other and with the rest of the world. While we wrestle with internal political gridlock and fiscal challenges and clash over border problems, the economies of the larger world change and flourish. Emerging economies sailed through the meltdown of 2008. The International Monetary Fund forecasts that by 2018, China's economy will be bigger than that of the United States: when combined with India, Japan and the four Asian Tigers—South Korea, Taiwan, Singapore and Hong Kong—China's economy will be bigger than that of the G8 (minus Japan). Rather than continuing on this road to mutual decline, our two nations should chart a new course. Bestselling author Diane Francis proposes a simple and obvious solution: What if the United States and Canada merged into one country? The most audacious initiative since the Louisiana Purchase would solve the biggest problems each country expects to face: the U.S.'s national security threats and declining living standards; and Canada's difficulty controlling and developing its huge land mass stemming from a lack of capital, workers, technology and military might. Merger of the Century builds both a strong political argument and a compelling business case, treating our two countries not only as sovereign entities but as merging companies. We stand on the cusp of a new world order. Together, by marshalling resources and combining efforts, Canada and America have a greater chance of succeeding. As separate nations, the future is in much greater doubt indeed.

Divides North America into nine powers, and explains the cultural, ethnic, and geographic identities of each

He even looks at pairing whisky and food. In this spirited, entertaining and no-nonsense guide, world-renowned expert Dave Broom dispels the mysteries of whisky and unlocks a whole host of exciting possibilities for this magical drink.

Based on the successful Baby Owner's Manual, The Baby Owner's Maintenance Log presents a refreshing alternative to traditional sugar-sweet baby journals. Language acquisition is a human endeavor par excellence. As children, all human beings learn to understand and speak at least one language: their mother tongue. It is a process that seems to take place without any obvious effort. Second language learning, particularly among adults, causes more difficulty. The purpose of this series is to compile a collection of high-quality monographs on language acquisition. The series serves the needs of everyone who wants to know more about the problem of language acquisition in general and/or about language acquisition in specific contexts.

You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . . admitted virginity. Whoo. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

By using a series of studies of contemporary mainstream Hollywood movies - 'Blue Velvet, Wall Street, Crimes and Misdemeanors, When Harry Met Sally, Sex Lies and Videotape, Do the Right Thing '- Norman Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists like Baudrillard, Barthes, Habermas, Jameson, Bourdieu and Derrida. He relates these to the problematic of the postmodern self as exposed in cinema centering on the decisive performance of race, gender and class.
