Progress reports are common in engineering. As the name suggests, they document ongoing projects. They might be one-page memos or long, formal documents. Such a report is aimed at whoever assigned the project. Its goal is to enable the manager or sponsor of a project to make informed decisions about the

Report Number. In order to be able to identify the construction progress report, a unique ID is required. Typically this progress report ID is a combination of the Project ID and sequence number for the report for that construction project, e.g. Project ABC-10. This means: “report number 10 for project ABC”.
