With extensive grower and vintner profiles, as well as a fascinating look at Champagne's history and lore, Champagne explores this legendary wine as never before.

From the world-renowned sommelier Aldo Sohm, a dynamic, essential wine guide for a new generation NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY FOOD52 Aldo Sohm is one of the most respected and widely lauded sommeliers in the world. He's worked with celebrated chef Eric Ripert as wine director of three-Michelin-starred Le Bernardin for over a decade, yet his philosophy and approach to wine is much more casual. Aldo's debut book, Wine Simple, is full of confidence-building infographics and illustrations, an unbeatable depth of knowledge, effusive encouragement, and, most important, strong opinions on wine so you can learn to form your own. Imbued with Aldo's insatiable passion and eagerness to teach others, Wine Simple is accessible, deeply educational, and lively and fun, both in voice and visuals. This essential guide begins with the fundamentals of wine in easy-to-absorb hits of information and pragmatic, everyday tips: key varietals and winemaking regions, how to taste, when to save and when to splurge, and how to set up a wine tasting at home. Aldo then teaches you how to take your wine knowledge to the next level and evolve your palate, including techniques on building a "flavor library," a cheat sheet to good (and great) vintages (and why you shouldn't put everything on the line for them), tips on troubleshooting tricky wines (corked? mouzy?), and, for the daring, even how to saber a bottle of champagne. This visual, user-friendly approach will inspire readers to have the confidence, curiosity, and enthusiasm to taste smarter, drink boldly, and dive headfirst fearlessly into the exciting world of wine.

"Nu pot decât să-i fiu recunoscător dnei Marinela V. Ardelean pentru efortul său, mereu reiterat, de a face cunoscut profilul românesc al oenologiei europene. Cititorul, localnic sau străin, află tot ce nu știa, sau știa vag, despre un patrimoniu care își merită locul printre valorile protejate ale civilizației noastre. Inventarul e amplu și alcătuit cu acribie, autoarea are toate calitățile unui comunicator eficient: expertiză (globală și circumstanțială), hărnicie inteligentă, profesionalitate pragmatică, farmec personal. Mai în glumă, mai în serios, ea reușește, prin acest volum, ceea ce nu reușește istoria contemporană: unificarea spațiului românesc, consemnarea continuității dintre spațiul de dincoace de Prut și cel al Republicii Moldova. Avem ce bea, avem ce citi, avem ce visa. Un cuvânt de laudă și pentru ținuta grafică a cărții: avem și ce privi! Lectură plăcută! Noroc!" " Andrei Pleșu "I can only thank Mrs Marinela V. Ardelean for her effort, always reiterated, to make the Romanian profile of European oenology known. The reader, local or foreign, finds out everything he did not know, or he barely knew, about a patrimony that deserves its place among the protected values of our civilization. The inventory is extensive and rigorous, the author has all the qualities of an efficient communicator: expertize (global and circumstantial), intelligent workmanship, pragmatic professionalism, personal charm. As a joke, but not really, she succeeds, through this volume, where contemporary history fails: the unification of the Romanian space, marking the continuity of the space between this side of the Prut and the Republic of Moldova. We have what to drink, we have what to read, we have what to dream of. A word of praise for the graphic outfit of the book too: we also have what to look at! Enjoy your reading! Cheers!" - Andrei Pleșu

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State;and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years;it has been suggested that an account of my life and fortunes would not be uninteresting to the public." - an excerpt

Winner of the Guild of Food Writers Drinks Book Award 2021 Shortlisted for the André Simon Food and Drink Book Awards 2020 "Noble Rot manages to unravel the mysteries of wine with insight and humour. A wonderful - and essential - read for anyone interested in the world of wine, or even for those, like me, who just drink it." " Nigella Lawson "The Noble Rot guys have the ability to describe wines as if they're either future friends, or rock-stars coming to blow your mind." " Caitlin Moran "Noble Rot has brought originality, humour and now space travel to the very serious business of drinking wine. About time too." " Brian Eno "Dan and Mark do that thing that only crazy knowledgeable enthusiasts can do, they make you a crazy enthusiast too. If they said, 'We've found a wine like no other, a wine that actually lights up the sky, but you can only drink it in the desert at midnight, are you coming? I'd be off, and I'd be confident of meteor showers. They provoke curiosity - 'how does anyone make this extraordinary drink just with grapes?' - excitement, joy, and a longing for knowledge. Now, in this book, they're sharing the knowledge." " Diana Henry "To really know and love a wine one should know the grower and the vineyard. This isn't always or even often possible, which is why the Rotters introduce these wines at source. You learn that making wine, as cooking should be, is an act of love. You will come to love this book too." " Rowley Leigh Choosing wine in a restaurant or shop can seem an unfathomable business. But, according to Dan Keeling and Mark Andrew, the duo behind London's Noble Rot, it needn't be that way. In Wine from Another Galaxy they'll help you to understand how it is made, where to buy it, what to look for when you drink it, and how to talk about it. And once you've mastered the basics, they'll take you on a journey through the best of European wine culture, meeting the people and places behind their favourite bottles. Indeed, Dan and Mark have spent years visiting growers that you probably haven't heard of, from the original thinkers of the natural wine movement to the iconic estates of Burgundy and Bordeaux. This is the alternative, accessible, no-holds-barred guide to wine, where the usual clichés and rules don't apply.

Few wine books can be called classic, but the first edition of The World Atlas of Wine made publishing history when it appeared in 1971. It is recognized by critics as the essential and most authoritative wine reference work available. This eighth edition will bring readers, both old and new, up to date with the world of wine. To reflect all the changes in the global wine scene over the past six years, the Atlas has grown in size to 416 pages and 22 new maps have been added to the wealth of superb cartography in the book. The text has been given a complete overhaul to address the topics of most vital interest to today's wine-growers and drinkers. With beautiful photography throughout, Hugh Johnson and Jancis Robinson, the world's most respected wine-writing duo, have once again joined forces to create a classic that no wine lover can afford to be without. "The World Atlas of Wine is the single most important reference book on the shelf of any wine student." - Eric Asimov, New York Times "The most useful single volume on wine ever published... If I owned only one wine book, it would be this one." - Andrew Jefford, Decanter "Like a good bottle of wine, you'll find yourself going back to it again and again... Perfect for anyone who has a thirst for greater wine knowledge." - Edward Deitch, NBC/today.com "The World Atlas of Wine belongs on your shelf... The essential rootstock of any true wine lover's library. A multi-layered snapshot of wine and how it has evolved." - Dave McIntyre, Washington Post

Wine growers are converting to biodynamic viticulture in record numbers. Some of the world's best wines are now biodynamic. At its heart, biodynamic viticulture is about understanding the nature of vines and their relationship to the environment. This beautifully illustrated and informative book will be of interest to current biodynamic wine growers and those considering converting to biodynamic methods. It includes: an introduction to the theory of biodynamic viticulture and the Goethean method of observation in relation to vines; practical articles on all aspects of wine growing, including biodiversity, pruning, treating and preventing disease; case studies of biodynamic vineyards from around the world. Biodynamic wine expert Jean-Michel Florin has gathered contributions from biodynamic viticulturists to create a beautiful, full-colour book which is both a celebration of sustainable wine growing and an invaluable guide to the future of wine cultivation.
