Vols. for 1978- include an annual directory issue.

When a crowd began to gather outside the jail in Tulsa, Oklahoma, on the evening of May 31, 1921, the fate of one of its prisoners, a young black male, seemed assured. Accused of attempting to rape a white woman, Dick Rowland was with little doubt about to be lynched. But in another part of town, a small group of black men, many of them World War I veterans, decided to risk lives for a different vision of justice. Before it was all over, Tulsa had erupted into one of America's worst racial nightmares, leaving scores dead and hundreds of homes and businesses destroyed. Exhaustively researched, *Death in a Promised Land* is the compelling story of racial ideologies, southwestern politics, and yellow journalism, and of an embattled black community's struggle to hold onto its land and freedom. More than just the chronicle of one of the nation's most devastating race riots, this critically acclaimed study of American race relations is, above all, a gripping story of terror and lawlessness, and of courage, heroism, and human perseverance.

The Tulsa Race Riot of 1921 was the worst civil disturbance since the Civil War. On May 21, 1921, a group of white Oklahomans attacked the prosperous African American community, called the Greenwood District or "the Black Wall Street" in Tulsa, OK over the alleged assault of a white woman by a black man. 24 hours later more than 800 people were admitted to local hospitals, 10,000 residents were homeless, and 35 city blocks were reduced to rubble. The monetary cost of the riot was later estimated to be 26 million dollars. This report examines the events leading up to the riot, the riot itself, and the consideration of reparations for the victims.

The Battle of Attu, which took place from 11-30 May 1943, was a battle fought between forces of the United States, aided by Canadian reconnaissance and fighter-bomber support, and the Empire of Japan on Attu Island off the coast of the Territory of Alaska as part of the Aleutian Islands Campaign during the American Theater and the Pacific Theater and was the only land battle of World War II fought on incorporated territory of the United States. It is also the only land battle in which Japanese and American forces fought in Arctic conditions. The more than two-week battle ended when most of the Japanese defenders were killed in brutal hand-to-hand combat after a final banzai charge broke through American lines. For years, Derrick Jensen has asked his audiences, "Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life?" No one ever says yes. Deep Green Resistance starts where the environmental movement leaves off: industrial civilization is incompatible with life. Technology can't fix it, and shopping—no matter how green—won't stop it. To save this planet, we need a serious resistance movement that can bring down the industrial economy. Deep Green Resistance evaluates strategic options for resistance, from nonviolence to guerrilla warfare, and the conditions required for those options to be successful. It provides an exploration of organizational structures, recruitment, security, and target selection for both aboveground and underground action. Deep Green Resistance also discusses a culture of resistance and the crucial support role that it can play. Deep Green Resistance is a plan of action for anyone determined to fight for this planet—and win.
