precise, and honest communication. Talent needs to be matched with competence, and the book shows exactly how one goes about doing that. It spells out the ingredients of a sound and strategic action plan that definitively aligns one's goals with one's aspirations, no matter how lofty. This plan has to be closely related to the choices, conditions, and possibilities that will be available for the kind of education and experience that individuals have and the aspirations they harbor. Young people will find solid guidelines in it that provide a structure for planning and focusing on the skills needed when one embarks upon a fulfilling career.
