Information and Communication Technology (ICT) is an extended term for Information Technology (IT) which stresses the role of unified communications. The term ICT is also used to refer to the convergence of audio-visual and telephone networks with computer networks through a single cabling or link system. There are large economic incentives (huge cost savings due to elimination of the telephone network) to merge the telephone network with the computer network system using a single unified system of cabling, signal distribution and management. However, ICT has no universal definition, as "the concepts, methods and applications involved in ICT are constantly evolving on an almost daily basis". The broadness of ICT covers any product that will store, retrieve, manipulate, transmit or receive information electronically in a digital form, e.g. personal computers, digital television, email, robots. For clarity, Zuppo provided an ICT hierarchy where all levels of the hierarchy "contain some degree of

Sponsored by the Department of Classics of Harvard University, a revised edition of the late Professor Smyth's A Greek Grammar for Colleges is now available. All necessary corrections have been made, and the book retains the form which has long made it the most complete and valuable work of its kind. In this descriptive grammar the author offers a treatment of Greek syntax which is exceptionally rich as well subtle and varied.

This translation of The Iliad equals Fitzgerald's earlier Odyssey in power and imagination. It recreates the original action as conceived by Homer, using fresh and flexible blank verse that is both lyrical and dramatic.

Discipline with Dignity details an affirming approach to managing the classroom that promotes respect for self and others. This completely updated 3rd edition offers practical solutions that emphasize relationship building, curriculum relevance, and academic success. The emphasis is on preventing problems by helping students to understand each other, work well together, and develop responsibility for their own actions, but the authors also include intervention strategies for handling common and severe problems in dignified ways. Filled with real-life examples and authentic teacher-student dialogues, Discipline with Dignity is a comprehensive and flexible system of prevention and intervention tools that shows how educators at all levels can *Be fair without necessarily treating every student the same way. *Customize the classroom to reflect today's highly diverse and inclusive student population. *Seek students' help in creating values-based rules and appropriate consequences. *Use humor appropriately and effectively to respond to abusive language. *Fine-tune strategies to resolve issues with chronically misbehaving students and "ringleaders" or bullies. This book is not simply a compendium of strategies for dealing with bad behavior. It is a guide to helping students see themselves in a different way, to changing the way they interact with the world. The strategies innate to this approach help students make informed choices to behave well. When they do, they become more attuned to learning and to understanding how to use what they learn to improve their lives and the lives of others--with dignity.

This book provides the information that is required to start a small spacecraft program for educational purposes. This will include a discussion of multiple approaches to program formation and build / buy / hybrid decision considerations. The book also discusses how a CubeSat (or other small spacecraft program) can be integrated into course and/or program curriculum and the ancillary benefits that such a program can provide. The assessment of small spacecraft programs and participatory project-based learning programs is also discussed extensively. The book presents prior work related to program assessment (both for a single program and internationally) and discusses how similar techniques can be utilized for both formative and summative assessment of a new program. The utility of these metrics (and past assessment of other programs) in gaining buy-in for program formation and funding is also considered.
