The Confessions is an autobiographical book by Jean-Jacques Rousseau. In modern times, it is often published with the title The Confessions of Jean-Jacques Rousseau in order to distinguish it from Saint Augustine's Confessions. Covering the first fifty-three years of Rousseau's life, up to 1765, it was completed in 1769, but not published until 1782, four years after Rousseau's death, even though Rousseau did read excerpts of his manuscript publicly at various salons and other meeting places.

Book 4, 1732. Rousseau is quite a popular guy, as it turns out. Mlle Giraud and Mlle Merceret are also into him. Mlle Merceret takes Rousseau along as a traveling companion as she goes back to visit her father. Although the two frequently stay in the same room along the journey, nothing romantic happens. On the way to their final destination, Rousseau stops to see his own dad.

Among the notable books of later times—we may say, without exaggeration, of all time—must be reckoned The Confessions of Jean Jacques Rousseau. It deals with leading personages and transactions of a momentous epoch, when absolutism and feudalism were rallying for their last struggle against the modern spirit, chiefly represented by Voltaire, the Encyclopedists, and Rousseau himself—a struggle to which, after many fierce intestine quarrels and sanguinary wars throughout Europe and ...

"Confessions" is an autobiographical book which covers the first fifty-three years of Rousseau's life, up to 1765. It was completed in 1769, but not published until 1782, four years after Rousseau's death, even though Rousseau did read excerpts of his manuscript publicly at various salons and other meeting places. He wrote of his own life mainly in terms of his worldly experiences and personal feelings. "Emile, or On Education" or "Émile, or Treatise on Education" is a treatise on the nature of education and on the nature of man. Jean-Jacques Rousseau considered it to be the "best and most important" of all his writings. During the French Revolution, Emile served as the inspiration for what became a new national system of education. Rousseau seeks to describe a system of education that would enable the natural man he identifies in *The Social Contract* (1762) to survive corrupt society. Emile is scarcely a detailed parenting guide but it does contain some specific advice on raising children. It is regarded by some as the first philosophy of education in Western culture to have a serious claim to completeness, as well as being one of the first Bildungsroman novels.

In this unique new edition: -"Two of the greatest Confessions of humanity".Jean-Jacques Rousseau (1712-1778). Enlightenment French philosopher whose political ideas influenced the French Revolution, the development of socialist theory, and the growth of nationalism. Rousseau also made important contributions to music both as a theorist and as a composer. With his CONFESSIONS IN 12 BOOKS and other writings, he practically invented modern autobiography and encouraged a new focus on the building of subjectivity that would bear fruit in the work of thinkers as diverse as Hegel and Freud.Rousseau's work is notable as one of the first major autobiographies. Prior to the Confessions, the two great autobiographies were Augustine's own Confessions and Saint Teresa's Life of Herself. However, both of these works focused on the religious experiences of their authors; the Confessions was one of the first autobiographies in which an individual wrote of his own life mainly in terms of his worldly experiences and personal feelings. Rousseau recognized the unique nature of his work; it opens with the famous words: "I have resolved on an enterprise which has no precedent and which, once complete, will have no imitator. My purpose is to display to my kind a portrait in every way true to nature, and the man I shall portray will be myself." His example was soon followed: not long after publication, many other writers (such as Goethe, Wordsworth, Stendhal, De Quincey, Casanova and Alfieri) wrote their own similarly-styled autobiographies.Saint Augustine of Hippo (354 - 430 AD) was a Roman African, early Christian theologian and Neoplatonic philosopher from Numidia whose writings influenced the development of the Western Church and Western philosophy, and indirectly all of Western Christianity. He was the bishop of Hippo Regius in North Africa and is viewed as one of the most important Church Fathers of the Latin Church for his writings in the Patristic Period. Among his most important works are The City of God, De doctrina Christiana, and Confessions.Confessions (Latin: Confessiones) is the name of an autobiographical work, consisting of 13 books, by Saint Augustine of Hippo, written in Latin between 397 and 400 AD. The work outlines Saint Augustine's sinful youth and his conversion to Christianity. Modern English translations of it are sometimes published under the title The Confessions of Saint Augustine in order to distinguish the book from other books with similar titles. Its original title was Confessions in Thirteen Books, and it was composed to be read out loud with each book being a complete unit.Confessions is generally considered one of Augustine's most important texts. It is widely seen as the first Western autobiography ever written, and was an influential model for Christian writers throughout the Middle Ages. Professor Henry Chadwick wrote that Confessions will "always rank among the great masterpieces of western literature."

This work is a frank treatment of Rousseau's sexual and intellectual development. It offers a model for the reflective life: the solitary, uncompromising individual; the enemy of servitude and habit; and the selfish egoist who dedicates himself to a particular ideal.
