An exhilarating debut by a young writer from Pakistan: provocative, funny, disarmingly original stories that upend

traditional notions of identity and family, and peer into the vulnerable workings of the human heart. From the high-stakes worlds of television and politics to the intimate corridors of home--including the bedroom--these wryly observed, deeply revealing stories look at life in Pakistan with humor, compassion, psychological acuity, and emotional immediacy. Childhood best friends agree to marry in order to keep their sexuality a secret. A young woman with an anxiety disorder discovers the numbing pleasures of an illicit love affair. A radicalized student's preparations for his sister's wedding involve beating up the groom. An actress is forced to grow up fast on the set of her first major tv show, where the real intrigue takes place off-screen. Every story bears witness to the all-too-universal desire to be loved, and what happens when this longing gets pushed to its limits. *Are You Enjoying?* is a free-spirited, confident, indelible introduction to a galvanizing new talent.

The television broadcasting culture of Pakistan was changed dramatically in 2002. The President, General Pervez Musharraf, introduced a policy of liberalisation that enabled controversial issues such as honour killings, adultery, stoning to death, domestic violence, marriage after divorce and homosexuality to be increasingly depicted on screen. *Women and TV Culture in Pakistan* is the first in-depth analysis of this change in television content. Munira Cheema focuses on how 'gender issues' are dealt with on TV and examines the impact this has on female viewers. In Pakistan, television is often the only way in which women can access the public sphere (except through male guardians) and this book evaluates how TV content allows them to navigate their intersecting identities as Muslims, women and Pakistanis. At a time when religious conservatism is on the rise in the country, this book investigates why producers choose to focus on gender-based issues and the extent to which religion dictates social behaviour and broadcasting choices. Based on interviews with women viewers in Karachi as well as industry professionals including writers, directors and ratings experts, the research is a much-needed and original contribution to global television studies and gender studies.

What does the future hold for European Christianity? Is the Christian church doomed to collapse under the weight of globalization, Western secularism, and a flood of Muslim immigrants? Is Europe, in short, on the brink of becoming "Eurabia"? Though many pundits are loudly predicting just such a scenario, Philip Jenkins reveals the flaws in these arguments in *God's Continent* and offers a much more measured assessment of Europe's religious future. While frankly acknowledging current tensions, Jenkins shows, for instance, that the overheated rhetoric about a Muslim-dominated Europe is based on politically convenient myths: that Europe is being imperiled by floods of Muslim immigrants, exploding Muslim birth-rates, and the demise of European Christianity. He points out that by no means are Muslims the only new immigrants in Europe. Christians from Africa, Asia, and Eastern Europe are also pouring into the Western countries, and bringing with them a vibrant and enthusiastic faith that is helping to transform the face of European Christianity. Jenkins

agrees that both Christianity and Islam face real difficulties in surviving within Europe's secular culture. But instead of fading away, both have adapted, and are adapting. Yes, the churches are in decline, but there are also clear indications that Christian loyalty and devotion survive, even as institutions crumble. Jenkins sees encouraging signs of continuing Christian devotion in Europe, especially in pilgrimages that attract millions--more in fact than in bygone "ages of faith." The third book in an acclaimed trilogy that includes *The Next Christendom* and *The New Faces of Christianity*, *God's Continent* offers a realistic and historically grounded appraisal of the future of Christianity in a rapidly changing Europe.

The year is 1971 Tension is brewing between India and Pakistan One secret could change the course of history . . . It's now up to her When a young college-going Kashmiri girl, Sehmat, gets to know her dying father's last wish, she can do little but surrender to his passion and patriotism and follow the path he has so painstakingly laid out. It is the beginning of her transformation from an ordinary girl into a deadly spy. She's then married off to the son of a well-connected Pakistani general, and her mission is to regularly pass information to the Indian intelligence. Something she does with extreme courage and bravado, till she stumbles on information that could destroy the naval might of her beloved country. Inspired from real events, *Calling Sehmat* . . . is an espionage thriller that brings to life the story of this unsung heroine of war.

The book features a review of films before Partition, plots of great cinema classics, trivia and cinema lore. Anecdotes and reminiscences about the people who shaped the entertainment industry as well as interviews with directors and producers make this book a treasure trove for cineasts. But alongside the trivia is a clever synthesis juxtaposing the artistic development of the cinematic world with the overall social development in the country. It shows how the narrow self-interest of the ruling clique clashed with the creative potential of the artistic world stifling originality and all but destroying the film industry.

This reference covers all areas of Pakistan, past and present. The subject addressed are under broad headings, relating to the history of Pakistan, its foreign affairs, its land and people, and other cultural, academic, and social conditions thereto.
