Selected interviews with the American writer shares his observations on his life and career, politics, Civil Rights, and the role of the artist

Never before available, the unexpurgated last interview with James Baldwin "I was not born to be what someone said I was. I was not born to be defined by someone else, but by myself, and myself only." When, in the fall of 1987, the poet Quincy Troupe traveled to the south of France to interview James Baldwin, Baldwin's brother David told him to ask Baldwin about everything—Baldwin was critically ill and David knew that this might be the writer's last chance to speak at length about his life and work. The result is one of the most eloquent and revelatory interviews of Baldwin's career, a conversation that ranges widely over such topics as his childhood in Harlem, his close friendship with Miles Davis, his relationship with writers like Toni Morrison and Richard Wright, his years in France, and his ever-incisive thoughts on the history of race relations and the African-American experience. Also collected here are significant interviews from other moments in Baldwin's life, including an in-depth interview conducted by Studs Terkel shortly after the publication of Nobody Knows My Name. These interviews showcase, above all, Baldwin's fearlessness and integrity as a writer, thinker, and individual, as well as the profound struggles he faced along the way.

An extraordinary history of the turbulent sixties and early seventies that displays James Baldwin's fury and despair more deeply than any of his other works, and powerfully speaks to contemporary conversations around racism. "It contains truth that cannot be denied." — The Atlantic Monthly In this stunningly personal document, James Baldwin remembers in vivid details the Harlem childhood that shaped his early consciousness and the later events that scored his heart with pain—the murders of Martin Luther King and Malcolm X, his sojourns in Europe and in Hollywood, and his return to the American South to confront a violent America face-to-face.

Available in book form for the first time, the FBI's secret dossier on the legendary and controversial writer. Decades before Black Lives Matter returned James Baldwin to prominence, J. Edgar Hoover's FBI considered the

Harlem-born author the most powerful broker between black art and black power. Baldwin's 1,884-page FBI file, covering the period from 1958 to 1974, was the largest compiled on any African American artist of the Civil Rights era. This collection of once-secret documents, never before published in book form, captures the FBI's anxious tracking of Baldwin's writings, phone conversations, and sexual habits—and Baldwin's defiant efforts to spy back at Hoover and his G-men. *James Baldwin: The FBI File* reproduces over one hundred original FBI records, selected by the noted literary historian whose award-winning book, *F.B. Eyes: How J. Edgar Hoover's Ghostreaders Framed African American Literature*, brought renewed attention to bureau surveillance. William J. Maxwell also provides an introduction exploring Baldwin's enduring relevance in the time of Black Lives Matter along with running commentaries that orient the reader and offer historical context, making this book a revealing look at a crucial slice of the American past—and present.

A long-time friend of the writer and social critic traces his development and journey from Harlem, to Paris, and finally back to America and discusses his lifelong dedication to articulate the intricacies of race relations and human struggle.

In this honest and stunning novel that inspired the award-winning major motion picture of the same name, James Baldwin has given America a moving story of love in the face of injustice. "A major work of Black American fiction." –*The New Republic* Told through the eyes of Tish, a nineteen-year-old girl, in love with Fonny, a young sculptor who is the father of her child, Baldwin's story mixes the sweet and the sad. Tish and Fonny have pledged to get married, but Fonny is falsely accused of a terrible crime and imprisoned. Their families set out to clear his name, and as they face an uncertain future, the young lovers experience a kaleidoscope of emotions—affection, despair, and hope. In a love story that evokes the blues, where passion and sadness are inevitably intertwined, Baldwin has created two characters so alive and profoundly realized that they are unforgettably ingrained in the American psyche.

A collection of interviews presents a portrait of the late American writer, offering glimpses into his development and character, as well as his concerns about racism and world events

A black writer's emotional response to American racism is juxtaposed with the logical analyses of a social scientist
