The third element of a course code is obvious: the name of the course. A course's name tells you what that course is about, and is actually the most useful way to compare courses. Unlike course numbers, which are specific to each college, course names can be fairly standard between institutions—especially among lower-division subjects.

Each Thomas Edison State University course/transfer course equivalency is given a unique identifier number which begins with a three letter departmental code (to represent the department in which the course, based on academic content) belongs. The departmental code is followed by three digits to signify the course level based on academic content. Generally, course levels (lower, upper and graduate) correlate with the difficulty of the course.
