The definitive cult, post-modern novel - a shocking blend of violence, transgression and eroticism.

The definitive cult, post-modern novel--a shocking blend of violence, transgression and eroticism. When Ballard, our narrator, smashes his car into another and watches a man die in front of him, his sense of sexual possibilities in the world around him becomes detached. As he begins an affair with the dead man's wife, he finds himself drawn with increasing intensity to the mangled impacts of car crashes. Then he encounters Robert Vaughan, a former TV scientist turned nightmare angel of the expressway, who has gathered around him a collection of alienated crash victims and experiments with a series of auto-erotic atrocities, each more sinister than the last. But Vaughan craves the ultimate crash--a head-on collision of blood, semen, engine coolant and iconic celebrity. First published in 1973 Crash remains one of the most shocking novels of the second half of the twentieth century and was made into an equally controversial film by David Cronenberg. Ballard's autobiography Miracles of Life was published in 2008 and Extreme Metaphors, a collection of interviews with the author, is due out in 2012.

The inspiring true story of how a group of inner city school kids taught their teacher how to overcome personal adversity and achieve success and happiness: "Kim Bearden's message is one that should be heard by all" (Ron Clark). Crash Course chronicles the life lessons that Kim Bearden has learned during an award-winning career in education. From her challenges as a first-year teacher to her triumphs as the cofounder of the highly acclaimed Ron Clark Academy, Kim shares how children can teach each of us the importance of building relationships, abandoning fear, discovering resilience, embracing one's unique gifts, and living with passion. Full of honesty, humor, heartbreak, and humanity, Kim's experiences show how children can help any one of us find joy and meaning in both our personal and professional lives. Crash Course is "humorous and sensitive" (Kirkus Reviews), an important resource for every home library.

"[An] extraordinary tale"--Wall Street Journal "Compelling [and] engaging"--Financial Times "Magnificently detailed yet pacy...Think Trading Places meets Wall Street"--Sunday Times (UK) The riveting story of a trading prodigy who amassed \$70 million from his childhood bedroom--until the US government accused him of helping trigger an unprecedented market collapse On May 6, 2010, financial markets around the world tumbled simultaneously and without warning. In the span of five minutes, a trillion dollars of valuation was lost. The Flash Crash, as it became known, represented what was then the fastest drop in market history. When share values rebounded less than half an hour later, experts around the globe were left perplexed. What had they just witnessed? Navinder Singh Sarao hardly seemed like a man who would shake the world's financial markets to their core. Raised in a working-class neighborhood in West London, Nav was a preternaturally gifted trader who played the markets like a computer game. By the age of thirty, he had left behind London's "trading arcades," working instead out of his childhood home. For years the money poured in. But when lightning-fast electronic traders infiltrated markets and started eating into his profits, Nav built a system of his own to fight back. It worked--until 2015, when the FBI arrived at his door. Depending on whom you ask, Sarao was a scourge, a symbol of a financial system run horribly amok, or a folk hero who took on the tyranny of Wall Street and the high-frequency traders. A real-life financial thriller, Flash Crash uncovers the remarkable, behind-the-scenes narrative of a mystifying market crash, a globe-spanning investigation into international fraud, and a man at the center of them both.

From a prize-winning economic historian comes an eye-opening reinterpretation of the 2008 economic crisis (and its 10-year aftermath) as a global event that directly led to the shockwaves being felt around the world today.

Seventh-grader John "Crash" Coogan has always been comfortable with his tough, aggressive behavior, until his relationship with an unusual Quaker boy and his grandfather's stroke make him consider the meaning of friendship and the importance of family.

"In The Crash Detectives, veteran aviation journalist and air safety investigator Christine Negroni takes us inside crash investigations from the early days of the jet age to the present, including the search for answers about what happened to the missing Malaysia Airlines Flight 370. As Negroni dissects what happened and why, she explores their common themes and, most important, what has been learned from them to make planes safer. Indeed, as Negroni shows, virtually every aspect of modern pilot training, airline operation, and airplane design has been shaped by lessons learned from disaster. Along the way, she also details some miraculous saves, when quick-thinking pilots averted catastrophe and kept hundreds of people alive. Tying in aviation science, performance psychology, and extensive interviews with pilots, engineers, human factors specialists, crash survivors, and others involved in accidents all over the world, The Crash Detectives is an alternately terrifying and inspiring book that might just cure your fear of flying, and will definitely make you a more informed passenger."--Amazon.com.
