In the 1830s, Jack Kelly is an Irish lad sold into indentured servitude. Jack's master turns out to be a mean-tempered drunk in frontier St. Louis and treats him harshly. There, Jack learns how to hunt, shoot a bow and arrow, trap, and throw a Tomahawk superbly-gaining his nickname "Hatchet Jack." One day, Jack's master beats him to within an inch of his life. Jack vows to escape to the untamed West to become a Mountain Man fur trapper. Thus begins an adventure involving turncoat fellow trappers, deadly betrayal, death on the frontier, battles with hostile Blackfoot Indians, loss, love, fortune, and an ultimate surprise. At the age of seventeen, Eustace Conway ditched the comforts of his suburban existence to escape to the wild. Away from the crushing disapproval of his father, he lived alone in a teepee in the mountains. Everything he needed he built, grew or killed. He made his clothes from deer he killed and skinned before using their sinew as sewing thread. But he didn't stop there. In the years that followed, he stopped at nothing in pursuit of bigger, bolder challenges. He travelled the Mississippi in a handmade wooden canoe; he walked the two-thousand-mile Appalachian Trail; he hiked across the German Alps in trainers; he scaled cliffs in New Zealand. One Christmas, he finished dinner with his family and promptly upped and left - to ride his horse across America. From South Carolina to the Pacific, with his little brother in tow, they dodged cars on the highways, ate road kill and slept on the hard ground. Now, more than twenty years on, Eustace is still in the mountains, residing in a thousand-acre forest where he teaches survival skills and attempts to instil in people a deeper appreciation of nature. But over time he has had to reconcile his ambitious dreams with the sobering realities of modernity. Told with Elizabeth Gilbert's trademark wit and spirit, this is a fascinating, intimate portrait of an endlessly complicated man: a visionary, a narcissist, a brilliant but flawed modern hero. The Last American Man is an unforgettable adventure story of an irrepressible life lived to the extreme. The Last American Man is a New York Times Notable Book and National Book Critics Circle Award Finalist.

The year is 1807. Josh and Gabe Dent are two brothers living on the far frontier of a young America. Their lives are jolted when their parents are brutally murdered by a gang of thieves. The two frontiersmen ride to hunt down the killers. The trail of vengeance is not an easy one. In the years that follow, Josh and Gabe find themselves answering the call of the West. The brothers join up with the first Mountain Men to see America's greatest untamed natural treasures. But as bountiful as it is, the land is fraught with danger and bloodshed.

In "*Wildlife Wars*," Terry Grosz serves up fascinating stories—alternately hair-raising, hilarious, and heart-wrenching—from his 30-year struggle to protect wildlife in America. A natural storyteller, Grosz writes about the remarkable characters he met—on both sides of the law—as he matched wits with elk poachers, salmon snaggers, commercial-market duck hunters, and a host of other law-breakers. Best of all, though, these stories are so remarkably entertaining you won't want to put them down. *Wildlife Wars* is the winner of the 2000 National Outdoor Book Award, Nature and the Environment

In WILDLIFE'S QUIET WAR, Terry Grosz continues to chronicle his remarkable career defending America's voiceless wild creatures. Since his first days as a California game warden in 1966 to the end of his career as a special agent for the U.S. Fish and Wildlife Service in 1998, Terry Grosz has been fighting to put those in the business of extinction out of business. In this, his tenth memoir, he recounts his adventures as a United States Game Management Agent, where he matched wits against cold-hearted killers: commercial market hunters, run of the mill poachers, sportsmen run amuck, outlaw Native Americans, politicians and law enforcement officers straying over the line of legality, wealthy land owners, and just plain dedicated killers of wildlife. Some set out to poach wildlife; others are recreational shooters who become possessed by their primitive blood lust. The effect is always the same, however—the destruction of a natural resource that should belong to those Americans who are yet to come. Bad weather is thrown into the mix, and a ton of side-slapping funnies that can only can happen to those who offend Mother Nature. Terry Grosz made every effort to stop these heartless criminals, and Wildlife's Quiet War book has all the excitement, drama and sometimes lively humor of his adventures. Incredible stories from those who thrived in the Wild West. The “ mountain men ” were the hunters and trappers who fiercely strode the Rocky Mountains in the early to mid-1800s. They braved the elements in search of the skins of beavers and other wild animals, to sell or barter for goods. The lifestyle of the mountain men could be harsh, existing as they did among animals, and spending most of their days and nights living and camping out in the great unexplored wilds of the Rockies. Life outdoors presented many threats, not least among them Native Americans, who were hostile to the mountain men encroaching on the area for their own purposes. For a certain kind of pioneer, this risk and more were outweighed by the benefits of living free, without the restrictions and boundaries of “ civilized ” settlements. Included in this collection are tales from great writers, including: Washington Irving Stanley Vestal Osborne Russell Francis Parkman Jr. And many more! In *The Adventures of the Mountain Men*, New York Times bestselling author Stephen Brennan has compiled many of the best stories about the mountain men—the most daring exploits, the death-defying chances taken to hunt big game, the clashes with the arrows of Native Americans, and also the moments when the men were struck by the incomparable beauty of the unsullied, majestic Rocky Mountains.
