In *Moving Toward the Millionth Circle*, psychiatrist, activist and best-selling author Jean Bolen inspires women and others to follow a path with soul, to take on a personal assignment that contributes to change, while relying on the support of a circle or circles of likeminded individuals. The metaphoric millionth circle is the tipping point into a post-patriarchal era, based on the premise that when a critical number of people change their perceptions and behavior, a new era can begin. The strength that comes from those circles feeds the activism and the activism makes the circles stronger. *Moving Toward the Millionth Circle* is about heart-centered activism. Drawn from Dr. Bolen's work with the United Nations and her experiences with His Holiness the Dalai Lama, and women from all walks of life all around the

feminine wisdom A book for women everywhere Readers of Wild Mercy, If Women Rose Rooted, Women Rowing North, or Warrior Goddess Training will love the inspiring message and call to action in Jean Shinoda Bolen's The Millionth Circle.

At some point after fifty, every woman crosses a threshold into the third phase of her life. As she enters this uncharted territory -- one that is generally uncelebrated in popular culture -- she can choose to mourn what has gone before, or she can embrace the juicy crone years. In this celebration of Act 3, Jungian analyst Jean Shinoda Bolen names the powerful new energies and potentials, or archetypes, that come into the psyche at this momentous time, suggesting

that women getting older have profound and exciting reasons for welcoming the other side of fifty. As Bolen has explained in her remarkable body of work, there are goddesses in every woman, deep archetypal sources of wisdom, authenticity and spirituality that, once tapped, energize us and give us a sense of meaning and self-acceptance. The knowledge of which archetypes are active within us at each phase of life—maiden, mother (or matron), and crone—supports us in making choices that are true to who we are instead of conforming to others' ideas of who we should be. In Bolen's bestselling *Goddesses in Everywoman*, the classic work of the women's spirituality movement, the Greek goddesses personified these archetypes as they affected the first two phases of a woman's adult life. Now she explains that in the third stage, marked

physiologically by menopause, there emerges a whole new cast of inner archetypes that a woman can draw on for guidance, creativity, personal integration, and joy. Once we learn to recognize these forces, we can feel empowered and wise, introspective and spiritual, sexually bold and full of mirth. For it is in the "wisewoman" years, when a woman has lived long enough to resolve the tasks of younger and middle adulthood, that she can fully and authentically become who she deeply is. The generation of women who are approaching or who have reached the crone years is historically unique. Influenced by the women's movement, they have benefited from educational opportunities, women's support networks, and economic resources as excellent preparation for decades of active postmenopausal life. By recognizing the goddess

archetypes that emerge in this phase, women of this special generation will be enabled to transform the crone years into the best years of their lives.

In Jean Shinoda Bolen's best-selling, game-changing *Goddesses in Everywoman*, myths came to life in a whole new way that resonated with our own lives. Even fictional character Bridget Jones was reading that book. Now comes *Artemis: The Indomitable Spirit in Everywoman*, a groundbreaking new book that explores the archetype of the

activist. Indomitable means untamed, unsubdued. It is the one-in-herself quality in girls and women who will not be victims, no matter what. To bring the Artemis archetype to life, Dr. Bolen delves deeply into the myth of Atalanta, the famous hunter and runner in ancient Greek mythology, a mortal woman who is identified with Artemis the Greek Goddess of the Hunt and Moon. Atalanta began life abandoned and left to die because she was born a girl. She faced the Calydon Boar and drew first blood; she was the runner who would demand to be beaten in a footrace by the man who could claim her as his bride. Atalanta exemplifies the indomitable spirit in competent, courageous girls and in the women they become. This is grit, the passion and persistence to go the distance, to survive, and to succeed. Dr. Bolen paints a vivid picture of

Artemis women in current media, including Princess Merida from the animated film Brave and Katniss Everdeen from The Hunger Games. In all these examples and those of real-life women who grow into their Artemis spirit, she provides the means through which readers can navigate their own personal exploration to become their authentic selves. Bolen dedicates this book to women and girls who embody the archetype of Artemis, who discover her uncrushable spirit in themselves or others.

trees and women. This book on the importance of trees grew out of Bolen's experience mourning the loss of a Monterey pine that was cut down in her neighborhood. That, combined with her practice of walking among tall trees, led to her deep connection with trees and an understanding of their many complexities. From their anatomy and physiology, to trees as archetypal and sacred symbols, Bolen expertly explores the dynamics of ecological activism spiritual activism and sacred feminism.
