Death Did Us Part presents a short story about the tumultuous marital relationship of a couple at the brink of divorce. The book, based on a true story, is a reflection on some of the pitfalls that plagued the marriage of Akawd and Muka and brought it to its deathbed. Interestingly, Akawd and Muka were both committed Christians and leaders in their church when they immigrated to Canada from Africa. By sharing this story, I provide an opportunity for readers to both understand better and safely observe the parallels that might exist between their own relationships and this couple's. These patterns may then be named and safely externalized. The book also serves to celebrate marriages and the couples who keep their vows.

Catholic sacramental doctrine has lost much of its credibility. Baptized people leave the church, adolescents stop attending shortly after they are confirmed, supposedly indissoluble marriages regularly dissolve, few go to confession, and many do not believe in transubstantiation. Drawing upon his decades-long study of the sacraments, Martos reveals how teachings that seemed rooted in the scriptures and Catholic life have become unmoored from the contexts in which they arose, and why seemingly eternal truths are actually historically relative. After carefully constructing Catholic teaching from the church's own documents, he deconstructs it by demonstrating how biblical passages were misconstrued by patristic authors and how patristic writings were misunderstood by medieval scholastics. The long process of misinterpretation culminated in the dogmatic pronouncements of the Council of Trent, which continues to dominate Catholic thinking about the church's religious ceremonies. If the sacraments are released from their dogmatic baggage, Martos believes that the spiritual realities they symbolize can be celebrated in any human culture without being tied to their traditional rites.

Now back in print for the first time since 1969, a stunning novel about childhood, marriage, and divorce by one of the most interesting minds of the twentieth century. Dream and reality overlap in *Divorcing*, a book in which divorce is not just a question of a broken marriage but names a rift that runs right through the inner and outer worlds of Sophie Blind, its brilliant but desperate protagonist. Can the rift be mended? Perhaps in the form of a novel, one that goes back from present-day New York to Sophie's childhood in pre-World War II Budapest, that revisits the divorce between her Freudian father and her fickle mother, and finds a place for a host of further tensions and contradictions in her present life. The question that haunts *Divorcing*, however, is whether any novel can be fleet and bitter and true and light enough to gather up all the darkness of a given life. Susan Taubes's startlingly original novel was

published in 1969 but largely ignored at the time; after the author's tragic early death, it was forgotten. Its republication presents a chance to discover a splintered, glancing, caustic, and lyrical work by a dazzlingly intense and inventive writer.

The Institutional Church Beast Infrastructure is an easy to understand and a comprehensive guide to some of the various tricks, techniques, lies and deceptions that are commonly used by the church beast system today. In 2015 many people are walking through life believing that they have an obligation to conform to the lunacy that the church purports to be sound doctrine and righteous teaching. In this book Babatunde Umanah takes the reader through the maze of confusion and mystery surrounding many of the common sayings and frequent bread and circus, minstrel show, buffoonish practices exercised within the vast majority of church beast branches across the denominational board and shows the reader the truth behind the veil. This book is designed to be used as a deprogramming and deconstructing tool which one can utilise to free themselves from the mental and physical shackles that have been strategically put in place by clergy and other church leadership. The Institutional Church Beast Infrastructure is purposely designed to be a straight forward, non complex, no nonsense read that can easily be digested and understood by all.

"A comedic novel about an American woman leaving her 20-year marriage to her French husband, returning to her native San Francisco to pick up the life she left behind, and the entwining lives of her children and grandchildren"--

This volume examines the various theological aspects of divorce and remarriage--historical, contemporary, exegetical, and practical--recognizing that all are subject to the teaching of Scripture. This is done in such a way that readers may follow the author's thinking and so form their own practical theology of this difficult ethical issue.

Tired of an arrangement that allows his wife, Melinda, to take as many lovers as she wants in exchange for not deserting the family, Vic tries to win her back by asserting himself with a tall tale of murder, a lie that eventually comes true, in a chilling novel about the dark reality behind the idyllic facade of American suburban life. Reprint.

Set in Paris, LE DIVORCE is an alluring and elegant comedy of love and divorce French-style. Isabel Walker, a young, not-so-innocent, American abroad, arrives in Paris to find that her sister's French husband ('the frog prince') has just walked out. While Isabel embarks on her own sentimental education - seduced by gourmet food, antiques, existentialism and an older man - her sister's marriage disintegrates into bitter Franco-American wrangles over money, titles and a mysterious painting. With a sharp tongue and an ironic eye for the foibles of the Parisian bourgeoisie, the French art world and American expatriots, Isabel is a collector of experience, even those she can't control. Comedy veers suddenly close to tragedy as passionate jealousy, self-interest and artistic intrigue interweave.

Who would dream of being against love? No one. Love is, as everyone knows, a mysterious and all-controlling force, with vast power over our thoughts and life decisions. But is there something a bit worrisome about all this uniformity of opinion? Is this the one subject about which no disagreement will be entertained, about which one truth alone is permissible? Consider that the most powerful organized religions produce the occasional heretic; every ideology has its apostates; even sacred cows find their butchers. Except for love. Hence the necessity for a polemic against it. A polemic is designed to be the prose equivalent of a small explosive device placed under your E-Z-Boy lounge. It won't injure you (well not severely); it's just supposed to shake things up and rattle a few convictions.
