The second digit in the number represents
the tooth number; so tooth 35 would be the
mandibular left second premolar and tooth
17 would be the maxillary right second
molar.

2nd Edition This manual puts a logical perspective on the difficult and often overwhelming subject of dental morphology. The combined photos, diagrams, and descriptions make the scoring of traits accessible to beginners, as well as an authoritative reference for experienced dental anthropologists and other interested parties.

Dental Morphology: An Illustrated Guide, 1e: Amazon.co.uk ...

The ideal anatomy of each dental structure is described in detail and the waxing techniques are beautifully illustrated step by step for visual reference. The author demonstrates that for every morphologic feature there is an explanation in nature, assigning significance to every minute feature of dental morphology.
