El título no engaña, pues nos encontramos con una obra que, bajo el formato de un auténtico libro de historia, recoge los datos aparecidos en novelas famosas del género especulativo para elaborar una elaborada cronología sobre la historia futura de la humanidad. El libro empieza de forma muy creíble, hablando de la bipolaridad existente durante la Guerra Fría, sobre el fin de la misma con la llegada a la Unión Soviética de la perestroika, y sobre el poder que, amparados en las ...

What will planet Earth be like in twenty years? At mid-century? In the year 2100? Prescient and convincing, this book is a must-read for anyone concerned about the future. Never has the world offered more promise for the future and been more fraught with dangers. Attali anticipates an unraveling of American hegemony as transnational corporations sever the ties linking free enterprise to democracy. World tensions will be primed for horrific warfare for resources and dominance. The ultimate question is: Will we leave our children and grandchildren a world that is not only viable but better, or in this nuclear world bequeath to them a planet that will be a living hell? Either way, he warns, the time to act is now.

Imagine—what if you had access to a simple yes-or-no answer to any question you wished to ask? A demonstrably true answer. Any question . . . think about it.— from the Foreword We think we live by forces we control, but in fact we are governed by power from unrevealed sources, power over which we have no control.— from the author's Preface The universe holds its breath as we choose, instant by instant, which pathway to follow; for the universe, the very essence of life itself, is highly conscious. Every act, thought, and choice adds to a permanent mosaic; our decisions ripple through the universe of consciousness to affect the lives of all.— from Power vs. Force "[A] beautiful gift of writing . . . [You] spread joy, love, and compassion through what you write. The fruit of these three is peace, as you know . . ."— Mother Teresa ". . . particularly timely . . . a significant contribution to understanding and dealing with the problems we face today."— Lee Iacocca "I especially appreciate [the] research and presentation on the attractor patterns of business . . ."— Sam Walton "Overwhelming! A masterpiece! A lifetime work!"— Sheldon Deal, President, International College of Applied Kinesiology

In 1921, Paul Amadeus Dienach, a Swiss-Austrian teacher with

fragile health, falls into a one-year-long coma. During this time, his consciousness slides into the future and enters the body of another man in 3906 A.D. When Dienach awakens from his coma, he finds himself back in 1922. Knowing that he doesn't have much time left, he writes a diary, recording whatever he could remember from his amazing experience: the mankind's history in the forthcoming centuries, from the nightmare of overpopulation and World Wars up until the world-changing globalisation, the radical new administration system, the colony on Mars and the next human evolutionary stage. Without any close friends and relatives to entrust, he doesn't say a word to anyone out of fear of being branded a lunatic. Before he dies, he hands his diary to his favourite student, George Papachatzis, later prominent Professor of Law and Rector of Panteion University of Greece. The diary circulates as hidden knowledge amongst high ranking masons in the lodges of Athens. In 1972, professor Papachatzis, despite an intense dispute, decides to publish Dienach's diary in Greek. Paul Dienach was not an author, poet, or professional writer. Rather, he was an ordinary man who kept a journal, never with the expectation that it would be published. This unique and controversial book, a universal legacy, is now carefully edited, translated and available to everyone. This is the history of our future! We deliver it to you."

'Anthony Hoekema brings to the study of biblical prophecy and eschatology a maturity that is rare among contemporary works on the subject. Free of sensationalism, he evinces a reverence for the Scriptures and a measured scholarship...One of the best studies on eschatology available.' ---Christianity Today

incredible man of faith. In *Elijah*, renowned Bible teacher Swindoll analyzes the impact of the Old Testament prophet. Elijah was uncompromisingly strong, yet self-controlled. Disciplined, yet forgiving. Audaciously courageous, yet kind. Heroic in the heat of battle, yet humble in the aftermath. Exploring the depths of Elijah's fascinating life as a prophet of God, Swindoll doesn't gloss over his human weaknesses; rather, he presents an honest picture of this ordinary man who God transformed into His personal spokesman to confront idolatry and evil in the ancient world. The fifth book in Swindoll's Great Lives series, *Elijah* will give you the encouragement you need to: Walk humbly on the path that God has set out for you Exhibit heroism under pressure Uncover the life-changing power of prayer Within the pages of *Elijah*, you're sure to find a life worth emulating.

Increasingly, the future is becoming a theme for theological reflection. In the background we can detect a growing concern among many people for the future of faith. Does faith have any future at all, and, if so, where in all the confusion of today's trends will we discover its embryo? But the problem of the future assails not only the believer. In the ever more rapidly advancing process of historical evolution, man is confronted with enormous opportunities, but also with colossal perils. For him, the future is not only hope, but sorrow—a nightmare, indeed. He cannot avoid asking what part faith can play in building tomorrow's world. Joseph Ratzinger, now Pope Benedict XVI, approaches this problem of universal concern from a variety of angles, bringing his deep personal faith and theological brilliance to bear on these serious questions.
