Design for How People Think
(Don Norman) (Video)
Corporate leaders,
marketers, product owners,
and designers will learn how
cognitive processes from
different brain regions form
what we perceive as a
singular experience. Author
John Whalen shows you how
anyone on your team can
conduct "contextual
interviews" to unlock
insights.

practical processes by which design concepts are developed. Many of the key concepts and aspects of design thinking have been identified through studies, across different design domains, of design cognition and design activity in both laboratory and natural contexts. Design thinking is also associated with prescriptions for the innovation of products and services within business and social contexts. Some of these prescriptions have been crit
