Disability in the Christian Tradition: A Reader: Brock ...

Disability in the Bible. Disability is seen in the Bible as something that catches God's attention: Bartimaeus, a blind beggar, the son of Timaeus, was sitting by the roadside. And when he heard that it was Jesus of Nazareth, he began to cry out and say, 'Jesus, Son of David, have mercy on me!'.

Jesus became progressively physically disabled through the long process of execution, as well as suffering the loss of freedom and complete social rejection and humiliation. To this evidence is added that of the wounds of the crucifixion in the resurrected body of Jesus (for example Luke 24:39-40 and John 20:27).

Brian Brock and John Swinton's Disability in the Christian Tradition brings together for the first time key writings by thinkers from all periods of Christian history - including Augustine, Aquinas, Julian of Norwich, Luther, Calvin, Hegel, Kierkegaard, Bonhoeffer, Barth, Hauerwas, and more. Fourteen contemporary experts in theology and disability studies guide readers through each era or group of thinkers, offering clear commentary and highlighting important themes.

Leading ethicist and pastoral theologian Brian Brock reflects on the challenge of disability, refuting widely held misconceptions and helping readers respond well to the pastoral implications of disability. Brock, the father of a child with special needs, weaves together theological commentary with narrative reflection, offering rich theological wisdom for shepherding people with disabilities. He shows pastors and ministers-in-training that thinking more closely and theologically about disability is a doorway into a more vibrant and welcoming church life for all Christians.

Attention to embodiment and the religious significance of bodies is one of the most significant shifts in contemporary theology. In the midst of this, however, experiences of disability have received little attention. This book explores possibilities for theological engagement with disability, focusing on three primary alternatives: challenging existing theological models to engage with the disabled body, considering possibilities for a disability liberation theology, and exploring new theological options based on an understanding of the unsurprisingness of human limits. The overarching perspective of this book is that limits are an unavoidable aspect of being human, a fact we often seem to forget or deny. Yet not only do all humans experience limits, most of us also experience limits that take the form of disability at some point in our lives; in this way, disability is more "normal" than non-disability. If we take such experiences seriously and refuse to reduce them to mere instances of suffering, we discover insights that are lost when we take a perfect or generic body as our starting point for theological reflections. While possible applications of this insight are vast, this work focuses on two areas of particular interest: theological anthropology and metaphors for God. This project challenges theology to consider the undeniable diversity of human embodiment. It also enriches previous disability work by providing an alternative to the dominant medical and minority models, both of which fail to acknowledge the full diversity of disability experiences. Most notably, this project offers new images and possibilities for theological construction that attend appropriately and creatively to diversity in human embodiment.

With two in seven American families affected by disability, the body of Christ has a great opportunity for ministry. This new anthology uniquely points the way, training churches, caregivers, pastors, and counselors to compassionately respond. The book's contributors--ranging from Joni Eareckson Tada and others living with disabilities, to seminary professors, ministry leaders, and medical professionals--do more than offer a biblical perspective on suffering and disability; they draw from very personal experiences to explore Christians' responsibility toward those who suffer. The volume addresses various disabilities and age-related challenges, end-of-life issues, global suffering, and other concerns--all the while reminding readers that as they seek to help the hurting, they will be ministered to in return. This unprecedented work, which includes a foreword by Randy Alcorn, belongs in the hands of every Christian worker and caring individual who is seeking a real-world, biblical perspective on suffering.

Pastor Lamar Hardwick was thirty-six years old when he found out he was on the autism spectrum. This revelation prompted him to reconsider the church's responsibilities to the disabled community. Insisting that the good news of Jesus affirms God's image in all people, Hardwick offers practical steps and strategies to build stronger, truly inclusive communities of faith.
