Two central conflict resolution theories are the Thomas-Kilman Conflict Mode Instrument (TKI) and the Interest Based Relational (IBR) Approach. The theory of TKI is that there are particular modes of dealing with conflict, and each is suited to different kinds of disputes. IBR puts forth a set of conflict resolution rules that should be used with any dispute.

Conflict resolution is an umbrella term that covers many different methods that can be used to resolve the conflict. While everything a person does toward ending the conflict, no matter how unfortunate, is technically a form of conflict resolution, conflict resolution is also commonly called ADR which stands for Alternative Dispute Resolution.

the historical and intellectual foundations of dispute processing, Carrie Menkel-Meadow turns her attention to the future of conflict resolution.

This book has its origins in an M.I.T. research project that was funded by the U.S. Environmental Protection Agency (EPA). Our immediate objective was to prepare a set of case studies that examined bargaining and negotiation as they occurred between government, environmental advocates, and regulatees throughout the traditional regulatory process. The project was part of a larger effort by

the EPA to make environmental regulation more efficient and less litigious. The principal investigator for the research effort was Lawrence Susskind of the Department of Urban Studies and Planning. Eight case studies were prepared under the joint supervision of Susskind and the authors of this book. Studying the negotiating behavior of parties as we worked our way through an environmental dispute proved enlightening. We observed missed opportunities for settlement, negotiating tactics that backfired, and strategies that appeared to be

grounded more in intuition than in thoughtful analysis. At the same time, however, we were struck by how often the parties ultimately managed to muddle through. People negotiated not out of some idealistic commitment to consensus but because they thought it better served their own interests. When some negotiations reached an impasse, people improvised mediation. These disputants succeeded in spite of legal and institutional barriers, even though few of them had a sophisticated understanding of negotiation.
