Are you ready to begin your journey to truth with courage, determination, faith, and trust? Like you, author Amenti Marakita knew that she wasn't living her ultimate life. Restricted by feelings of dissatisfaction and a general sense that she just didn't fit in, she knew that something had to change. She needed strength and motivation to create happiness as an adult. Motherhood was her foundation, and secretarial work was her bread and butter, but she wasn't satisfied. She knew that it would take a leap of faith for things to really change. She took her first step to a new life by opening herself up to the world of natural therapies. She valued the process of working through challenges with various modalities and enjoying the rewards on the other side. She accepted the invitation to explore her reality and experience her true potential as a woman. In *Close Your Eyes and Wake Up*, Marakita, a Kinergetics practitioner and instructor, shares her guidance with those who are ready to leave the status quo behind and venture boldly into the unknown. Kinergetics opened her heart to a world of happiness within herself by allowing her programmed self to fall away. By learning to trust synchronicity, signs, and inner and outer guidance, she was reborn.

Everyone is taking DNA tests! Including me. I woke up one morning a stranger in my skin. I was no longer the woman I had built for 30 years. I was a lost soul with only a hologram existence. My Birth Certificate was a flat out lie. I was not the little girl from Gulfport with just honey brown skin. I was not the little girl who tried to straighten her curls. I was Val with a biological change in my mental makeup all because I spit into a DNA test tube. I lost not only my fake false identity. I lost my race. I was raised white. To think white. To see white. My mother's lie took me on a road of self discovery that I must share. In order to heal and move past my racial beginnings. I confront the truth about racial relations and how every family has a voice in who we have actually become. My story started prior to the racial debate on full display in 2020. My look on the inside is a window of opportunity to help enlighten both Americas to our truths in racial justice and equality. How did my family react to my new discoveries? Did I change as a human being? Was my white husband of 30 years shocked to find his wife is a half black woman and not the white girl her mother forced upon her? Is there a difference in our races? Or did I discover we really are all the same? Was I able to forgive my mother for causing such deep pain that still resides deep in my soul with every breathe I take?

Are you choosing to be, have, and experience more in your life? Whatever you are experiencing in life these heart-felt stories will enlighten, inspire, and motivate you to pursue your passion.

Most books about self growth or self involvement starts by telling how you can let go of all the old stuff that you have gathered through your life until now. But when you start to pierce a hole in the bag it becomes quite overwhelming. When we understand this, it 's easier to let go of the things we no longer want to be a part of who we are. Self involvement means that the Self consciously chooses to evolve. We constantly evolve but only when we become aware the Self or the personality takes an active part in this and starts an exponential growth in understand life itself. It is about getting an overview; overview takes away many frustrations about not being able to understand one 's own situation, and when the frustrations diminish, one have more energy to actually be an active and aware participant in one 's life.
