## How Full Is Your Bucket? For Kids

An illustrated adaptation of the long-running bestseller *How Full Is Your Bucket?* (more than 400,000 copies sold) for kids — told through the story of a boy who learns a valuable "bucket filling" metaphor and watches it come to life as the day unfolds. Every moment matters. Each of us has an invisible bucket. When our bucket is full, we feel great. When it's empty, we feel awful. Yet most children (and many adults) don't realize the importance of having a full bucket throughout the day. In *How Full Is Your Bucket? For Kids*, Felix begins to see how every interaction in a day either fills or empties his bucket. Felix then realizes that everything he says or does to other people fills or empties their buckets as well. Follow along with Felix as he learns how easy it can be to fill the buckets of his classmates, teachers and family members. Before the day is over, you'll see how Felix learns to be a great bucket filler, and in the process, discovers that filling someone else's bucket also fills his own.

Teacher resource books of daily review. Provides consistent, systematic review and practice of most commonly taught and tested math topics every day for twelve weeks. Each daily lesson of Drops in the Bucket includes a variety of tasks to engage the mind and prepare your students to successfully use math in their lives, both in and out of school.

Praise for BILLIONS OF DROPS IN MILLIONS OF BUCKETS "Billions of Drops in Millions of Buckets provides a bracing and original look at philan-thropy that offers a much-needed corrective to conventional wisdom. Steve Goldberg combines a resolve to understand why so much philanthropy accomplishes so little enduring social change with a timely and serious proposal to reinvigorate nonprofit capital markets through the simplest of insights: getting more of the money to where it can do the most good. This book will change how forward-looking philanthropists, foundations, and policymakers think about the relationship between charitable giving and the transformative capacity of social entrepreneurs." —Jerr Boschee, founder and Executive Director, The Institute for Social Entrepreneurs; Visiting Professor of the Practice in Social Enterprise, Carnegie Mellon University "Goldberg's arguments are logical next steps in the rapidly evolving discussion of social capital markets. He offers ambitious proposals informed by the reality of current practices and focused on an achievable set of goals. He fully recognizes the potential for restructuring that is inherent in this time of financial hardship. Real change relies on big ideas, and Steve Goldberg offers us several." —Lucy Bernholz, author of *Creating Philanthropic Capital Markets: The Deliberate Evolution* "When I first heard about 'evidence-based medicine,' I thought: 'you mean it isn't?' Read this book and that's how you'll feel about 'performance-based philanthropy.' Goldberg takes some of the best current management thinking and applies it to social enterprise, illuminating both the encouraging successes of social entrepreneurs and the barriers they face. Even better, he presents compelling ideas for making the social sector vastly more effective." —Christopher Meyer, Chief Executive, Monitor Networks "Goldberg calls for more 'performance-driven philanthropy,' where nonprofits are rewarded based on their results, in place of the current dysfunction. It is an important call and a valuable contribution to discussions about how to improve nonprofits in the U.S. and internationally." —Martin Brookes, Chief Executive, New Philanthropy Capital "Billions of Drops... is a must-read romp through emerging fields of social entrepre-neurship and nonprofit capital markets." —George Overholser, founder and Managing Director, NFF Capital Partners

Teacher resource books of daily review. Provides consistent, systematic review and practice of most commonly taught and tested math topics every day for twelve weeks.

This heartwarming book encourages positive behavior by using the concept of an invisible bucket to show children how easy and rewarding it is to express kindness, appreciation and love by "filling buckets." Updated and revised, this 10th anniversary edition will help readers better understand that "bucket dipping" is a negative behavior, not a permanent label. It also explains that it's possible to fill or dip into our own buckets.

In the developed world, if you want a drink of water you just turn on a tap or open a bottle. But for millions of families worldwide, finding clean water is a daily challenge, and kids are often the ones responsible for carrying water to their homes. Every Last Drop looks at why the world's water resources are at risk and how communities around the world are finding innovative ways to quench their thirst and water their crops. Maybe you're not ready to drink fog, as they do in Chile, or use water made from treated sewage, but you can get a low-flush toilet, plant a tree, protect a wetland or just take shorter showers. Every last drop counts!

Fans of classic frontier survival stories, as well as readers of dystopian literature, will enjoy this futuristic story where water is worth more than gold. New York Times bestselling author Michael Grant says Not a Drop to Drink is a debut "not to be missed." With evocative, spare language and incredible drama, danger, and romance, Mindy McGinnis depicts one girl's journey in a frontierlike world not so different from our own. Teenage Lynn has been taught to defend her pond against every threat: drought, a snowless winter, coyotes, and most important, people looking for a drink. She makes sure anyone who comes near the pond leaves thirsty—or doesn't leave at all. Confident in her own abilities, Lynn has no use for the world beyond the nearby fields and forest. But when strangers appear, the mysterious footprints by the pond, nighttime threats, and gunshots make it all too clear Lynn has exactly what they want, and they won't stop until they get it. . . . For more in this gritty world, join Lynn on an epic journey to find home in the companion novel, *In a Handful of Dust*.

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how "man's best friend" might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.
