Graphic design - Graphic design in the 20th century ...

Early printing and graphic design. While the creation of manuscripts led to such high points in graphic design, the art and practice of graphic design truly blossomed with the development of printmaking technologies such as movable type. Antecedents of these developments occurred in China, where the use of woodblock, or relief, printing, was developed perhaps as early as the 6th century ce.

Dutch Graphic Design | The MIT Press

It is too simple to suggest that Dutch graphic designers have an easy working life. The 'official anarchy 1 ' of the design scene is often romanticised, but like anywhere else, the country has its share of mediocre designers and conservative clients. One still has to fight for a good idea. However, the position of a graphic designer in the Netherlands remains very different from other ...
