~~The IC Engine Designs of ET Westbury~~

December 30 1896, May 3 1970. Edgar T Westbury is rightly

Where To Download E T Westbury Engines

considered a pioneer of model and small internal combustion engine design. While his work is more commonly known in England and her "colonies" (Australia, South Africa, New Zealand, etc), his designs have been build in countless numbers the world over. Although "ETW" is renown for his IC designs, he wrote and published prolifically on steam power, nautical design, model engineering, and other allied topics.

15 cc Seal 4 Cylinder Petrol Engine. The "Seal" in model engineering circles, is one of many models created by the respected model engineer Edgar T Westbury. Sadly he is no longer with us but his place in British and other country's model engineering history is grounded in the many models he designed and built.
