Engage scientists in grades 4-6 and prepare them for standardized tests using Just the Facts: Earth and Space Science. This 128-page book covers concepts including rocks and minerals, weathering, fossils, plate tectonics, earthquakes and volcanoes. Other topics include oceans, the atmosphere, weather and climate, humans and the environment, and the solar system. It includes activities that build science vocabulary and understanding, such as crosswords, word searches, graphing, creative writing, vocabulary puzzles, and analysis. An answer key and a standards matrix are also included. This book supports National Science Education Standards and aligns with state, national, and Canadian provincial standards.

The activities in this book have two intentions: to teach concepts related to earth and space science and to provide students the opportunity to apply necessary skills needed for mastery of science and technology curriculum objectives. Throughout the experiments, the scientific method is used. In each section you will find teacher notes designed to provide guidance with the learning intention, the success criteria, materials needed, a lesson outline, as well as provide insight on what results to expect when the experiments are conducted. Suggestions for differentiation are also included so that all students can be successful in the learning environment. Topics covered include: Understanding Earth & Space Systems and Interactions. 96 Pages

research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined. FTCE Earth/Space Science 6-12 Secrets includes: The 5 Secret Keys to FTCE Test Success: Time Is Your Greatest Enemy, Guessing is Not Guesswork, Practice Smarter, Not Harder, Prepare, Don't Procrastinate, Test Yourself; Introduction to the FTCE Series; A comprehensive General Strategy review including: Make Predictions, Answer the Question, Benchmark, Valid Information, Avoid Fact Traps, Milk the Question, The Trap of Familiarity, Eliminate Answers, Tough Questions, Brainstorm, Read Carefully, Face Value, Prefixes, Hedge Phrases, Switchback Words, New Information, Time Management, Contextual Clues, Don't Panic, Pace Yourself, Answer Selection, Check Your Work, Beware of Directly Quoted Answers, Slang, Extreme Statements, Answer Choice Families; Along with a complete, in-depth study guide for your specific FTCE exam, and much more...

Connect students in grades 6 and up with science using Science Tutor: Earth and Space. This effective 48-page resource provides additional concept reinforcement for students who struggle in earth and space science. Each lesson in this book contains an Absorb section to instruct and simplify concepts and an Apply section to help students grasp concepts on their own. The book covers topics such as the layers of the earth, types of rock, how rock is formed, weather, the phases of the moon, and Earth's place in the solar system. It also highlights key terms in the text and includes a recap of the metric system. The book supports National Science Education Standards.

A textbook exploring such aspects of matter and energy as heat, electricity, and nuclear chemistry, with suggested activities and review questions at the end of each chapter.

Inspire your students to gain a deep understanding of our planet earth and beyond with our Hands-On Earth & Space Science resource for grades 1-5. Combining Science, Technology, Engineering, Art, and Math, this resource aligns to the STEAM initiatives and Next Generation Science Standards. Make your own weather forecast as a group. Find out how much rain has fallen by building your own rain gauge. Get a glimpse at how wind works by creating your own sand dunes. Tell a story by drawing your own rock layer. Get into groups to make your own solar cell, windmill, or water wheel. Track the movement of the Moon with your own Lunar Calendar. Each concept is paired with reproducible hands-on experiments and comprehension activities to ensure your students are engaged and fully understand the concepts. Reading passages, graphic organizers, before you read and assessment activities are included.
