Published in association with the Commonwealth of Learning Open and distance learning has expanded dramatically in recent years across the world, across the spectrum of subject areas, and across educational levels. This book takes a detailed look at the state of the art of open and distance learning in higher education, and presents a fascinating picture of a world and its educational culture in transition. This edited collection contains authoritative analyses of key issues together with current accounts of practice in each region of the world. It includes *open and distance learning in relation to internationalisation, lifelong learning and flexible learning *costs of distance education *the impact of telecommunications *applications of open and distance learning in Africa, the Americas, Asia, Europe and Oceania. It draws together experts in the field from all over the world, and has a truly international perspective on the phenomenon of open and distance learning. Its unparalleled breadth of coverage makes it an indispensable work of reference for experts and newcomers alike.

This book is a collection of diverse essays by scholars, policy-makers and creative practitioners who explore the burgeoning field of cultural measurement and its political implications. Offering critical histories and creative frameworks, it presents new approaches to accounting for culture in local, national and international contexts.

A discussion of how the knowledge media can contribute to the renewal of universities, particularly through the development of distance education. It looks at universities which have risen to the challenges of cost and accessibility using technology.

In today's technology-crazed environment, distance learning is touted as a cost-effective option for delivering employee training and higher education programs, such as bachelor's, master's and even doctoral degrees. Distance Learning Technologies: Issues, Trends and Opportunities provides readers with an in-depth understanding of distance learning and the technologies available for this innovative media of learning and instruction. It traces the development of distance learning from its history to suggestions of a solid strategic implementation plan to ensure its successful and effective deployment.

Each of the knots described in this reference is clearly identified by category and step-by-step instructions and colour photographs explain how to tie or splice them. The author also includes information on ropes, their strengths and their uses.'

This Safety Guide provides guidance on the implementation of the requirements in the International Basic Safety Standards, IAEA Safety Standards Series No. GSR Part 3, in relation to protection of the public and the environment against radiation risks. It provides generic guidance on the application of the radiation protection principles of justification, of optimization of protection and safety, and of dose limits. The publication covers the protection of the public and the environment in all exposure situations -- planned, emergency and existing.

An essential resource for scholars and performers, this study by a world-renowned specialist illuminates the piano music of four major French composers, in comparative and reciprocal context. Howat explores the musical language and artistic ethos of this repertoire, juxtaposing structural analysis with editorial and performing issues. He also relates his four composers historically and stylistically to such predecessors as Chopin, Schumann, Liszt, the French harpsichord school, and Russian and Spanish music. Challenging long-held assumptions about performance practice, Howat elucidates the rhythmic vitality and invention inherent in French music. In granting Fauré and Chabrier equal consideration with Debussy and Ravel, he redresses a historic imbalance and reshapes our perceptions of this entire musical tradition. Outstanding historical documentation and analysis are supported by Howat's direct references to performing traditions shaped by the composers themselves. The book balances accessibility with scholarly and analytic rigor, combining a lifetime's scholarship with practical experience of teaching and the concert platform

Learn how to apply the right knot in any situation - secure and strong enough for the job. Such skill can be essential to the safety and enjoyment of leisure pursuits, such as climbing, sailing and fishing. In rescue, life can depend on it. Here Geoffrey Budworth has selected over 100 of the best knots from his lifetime's experience of knots.

This book is a firsthand report of a great composer's intentions in regard to the performance of his music. These intentions have been digested and interpreted for us by the composer's friend Robert Schmitz (1889-1949), who was himself a distinguished pianist, an articulate musician, and a well-known teacher. The product is an authoritative commentary on the entire body of Debussy's work for piano solo. Written for both performers and listeners, the book's purpose is to increase enjoyment of and insight into these works. The book's shorter opening section comprises notes on many general aspects of the composer's life and work; a biographical sketch; a discussion of Debussy's place in relation to the concepts of impressionism and romanticism; his use of classical forms, tonality and modality, melody, counterpoint, etc. Section two, the heart of the book, examines in detail the whole of Debussy's music for solo piano, two hands. Seventy-one pieces in all are included: The Arabesques, the Suite Bergmasque, the Estampes, Images, Children's Corner, Preludes and Etudes. Each in its chronological place, the pieces are first described as a whole as to mood, source of programmatic inspiration, structure, tonality, and other characteristics. Then follows specific suggestions dealing with technical and expressive problems of particular measures and phrases. The book is not meant as a substitute for Debussy's piano works; on the contrary, it will cause both listeners and performers to turn to this superb corpus of music with new interest and insight. "Complete, thorough, authoritative and important." "San Francisco Chronicle." "It is a thoughtful and mature reference book and though I am at variance with certain of its premises and conclusions, there is much to provoke the intelligent music lover and the inquiring musician." Abram Chasins, "The New York Times." "There is no doubt that he had closely identified himself with the great French composer, and his love and belief in the music shine through every page of this book." H. C. Schonbert, "The Saturday Review." "

Fair winds and fine cruising is author Chris Doyle's wish for readers of this popular, newly updated guide to the 10 island nations of this enchanting Caribbean chain.Doyle's background in research makes this volume rich in practical details; yet its tone is conversational. His is also an intimate knowledge, gathered from more than 20 years of live-aboard Caribbean cruising on his Carib 41 Helos, a former charterboat.The Leewards are a cultural and topographic mix, and Doyle addresses them by geographical grouping. The Renaissance Islands (St. Martin, St. Barts and Anguilla), an economically strong bareboating enclave, offer short cruising passages and a wide choice of anchorages. The Islands That Brush the Clouds - a volcanic chain strung between Saba and Montserrat - present cruisers with a variety of channels and terrain. Most broadly strewn are the Islands of Mountains and Mangroves, a patchwork chiefly of rugged rainforest and exotic fauna, guarded in spots by spectacular reefs.The southern Leewards in particular have cried for reliable charting. Doyle provides aid throughout, using GPS coordinates, a trove of charts and color maps. All are cross-referenced with the newly released Caribbean Yachting Charts, exactlyngly detailed and available through Cruising Guide Publications. Spectacular photographs add a visual feast.Onshore accommodations, transportation, communications, entertainment and provisioning are also addressed throughout the guide, and in an exhaustive directory by island and service type.
