"Becoming Who God Intended" answers the heart questions of those who are deeply frustrated with their Christian life: Is it "normal" that my emotional experience doesn't match up with the Bible?" Why do I feel "alive" only when I engage in habitual sins and compulsions?" Do I just have to live with anxiety, anger, shame, and depression?" Every person's "heart life" is filled with "pictures" of reality--often false ones, says David Eckman. But as believers use the truth of their new identity in Christ to develop "biblical "pictures, they will be able to truly accept God's acceptance of them, be freed from negative emotions and habitual sins...and finally experience a life that matches what Scripture promises.

Semitism, vicious pogroms, and the unimaginable Holocaust. Over a third of the world's Jews were killed. Yet, today the largest concentration of Jews resides in Israel—a modern miracle. Theologian and historian Dr. Jim Eckman presents a riveting history of God's covenant people from the initial promises God made to Abraham to the establishment of the modern state of Israel in 1948. Through enslavement in ancient Egypt, the conquest under Joshua, the establishment of the monarchy under David, the brutal exiles under Assyria and Babylon to the tragedies of Diaspora Judaism, the Jewish people have survived. For almost 1,900 years, the Jews were dispersed and despised as "Christ-killers." But, by the late nineteenth century, there was evidence of a change in the world's perception of the Jews. How and why did they begin their historic trek back to their ancient homeland? Eckman identifies ten major historical events that reawakened the West to the necessity of a homeland for the Jewish people. As he weaves history together with the theological portrait of our covenant-making, covenant-keeping God, Eckman provides an indispensable handbook for understanding today's Middle East and the importance of the Jewish people to God's eternal plan for this planet.
