COVID-19: Implications for business

It is an applied science in the sense of a tool of managerial decision-making and forward planning by management. In other words, business economics is concerned with the application of economic theory to business management. Business economics is based on microeconomics in two categories: positive and normative. Business economics focuses on the economic issues and problems related to business organization, management, and strategy.

Business economics - Wikipedia

Economics for Business and Management is designed to meet the needs of students who have to study some economics as part of their business course. It is a book about economics that focuses on those principles and analytic tools developed by economists that are important for an understanding of the business world. Until recently most business studies students have had to use the same introductory texts as students who wished to go on to be professional economists.
