The Cambridge IGCSE Chemistry Revision Guide supports students through their course, containing specifically designed features to help students apply their knowledge as they prepare for assessment.

The only textbook that completely covers the Oxford AQA International GCSE Biology specification (9201), for first teaching in September 2016. Written by experienced authors, the enquiry-based, international approach ensures a thorough understanding of the underlying principles of biology and provides exam-focused practice to build assessment confidence. It fully covers the 5 required practicals in the specification, enabling your students to build the investigative and experimental skills required for assessment. This textbook helps students to develop the scientific, mathematical and practical skills and knowledge needed for the Oxford AQA International GCSE Biology exams and provides an excellent grounding for A Level study.

Written especially for students preparing for the University of Cambridge International Examinations IGCSE Maths examination, Extended Curriculum, up to Grade A. Written by experienced examiners, the book covers every topic in the syllabus, with brief explanations of each topic followed by worked examples and questions, giving students the confidence to succeed in their examinations. Numerical answers are given at the back of the book, whilst full model answers to the exam questions are available free on our website. There is a handy checklist at the front of the book to aid revision planning, and a main vocabulary list has been included.
