The Trainer's Guide to Training Most new trainers and presenters know all they need to know about their chosen subject. Unfortunately, few of them actually know how to present what they know. For more than a decade, Robert Jolles's *How to Run Seminars and Workshops* has taught tens of thousands of people how to sell, teach, stand up, and deliver an effective training session on almost any subject in almost any setting. This new Third Edition updates this classic guide for anyone who has to get up and move an audience. Just as he did in the book's previous editions, Jolles-former head of Xerox's world-renowned "train the trainer" program-shares proven, effective techniques for winning over an audience, holding their interest,

The X-ray equipment maintenance and repairs workbook is intended to help and guide staff working with, and responsible for, radiographic equipment and installations in remote institutions where the necessary technical support is not available, to perform routine maintenance and minor repairs of equipment to avoid break downs. The book can be used for self study and as a checklist for routine maintenance procedures.

A biography of Vivien Thomas, an African American surgical technician who developed the first procedure used to perform open-heart surgery on children.
