~~Book Review: EMP ~~|~~ Protect Family, Homes, and Community ...~~

by Jerry Emanuelson. © 2013-2015 Jerry Emanuelson. This is the beginning of Appendix D of the 3rd edition of EMP - Protect Family, Homes and Community. This Appendix will be an online extension of the book. The book was written for engineers, community planners and the general public. With such a broad target audience, it was impossible to include a fraction of the details that we would have like to have included.

~~Appendix D - EMP - Protect Family, Homes and Community~~

Protect your home, vehicle and more with the ideal lightning protection & electromagnetic shielding from the dangers to which they are susceptible to on a daily basis. Our EMP attack shielding is military tested and certified, providing you with unparalleled EMP & home lightning protection to keep you from building your own faraday cage.

~~Home EMP Protection | EMP Shield~~

EMP Shield is the World's first EMP protection technology for an entire home and vehicle tested to military and UL 1449 standards from ETL. Built to exceed military standards (MIL-STD-188-125-1, MIL-STD-464C, and MIL-STD-461G), The EMP Shield is one of the World's fastest whole home surge protectors operating in less than 1 billionth of a second. Our devices have been military tested and proven to defend against the E1, E2, and E3 phases of an electromagnetic pulse.

~~EMP & Lightning Protection | EMP Shield~~

EMP protected solar and battery backup power ensures a 24/7 supply of electricity both before and after an EMP event. With EMP protection, lifestyle or the quality of living, increases from barely existing (as projected for the best situation in most scenarios) to thriving in a post-EMP situation for prepared communities, with further improvements and little job loss when these protections are extended to the town or county level.

~~EMP - Protect Family, Homes and Community (5 Vol. EMP ...~~

EMP | Protect Family, Homes and Community is a book on Wake-up America to an EMP (upper atmospheric nuclear electromagnetic pulse) burst event waiting to happen. With threats from terrorists and rogue nations, Iran and North Korea, and counter threats from Israel, experts testifying before Congress say, "EMP is not if, but when."

~~EMP Protect Family, Homes & Community: EMP Protection ...~~

An electromagnetic pulse weapon, or EMP, is a "surge of energy that can be sent at high speeds throughout the sky," according to Tech Protect. There are at least three "types of events" that can...

~~What is an EMP attack and how do you prepare for one ...~~

Properly carried out, an EMP has the potential of sending our lifestyle back by about 100 years, forcing us to live much as our great-grandparents did. The loss of electrical power would turn most of the appliances into useless junk, while the infrastructure we all depend on would suddenly come to a grinding halt.

~~7 Things That Will Survive an EMP - Ask a Prepper~~

Paper thin and practically weightless, the "EMP cloth" is made out of 23% copper + 27% nickel + 50% polyester. At 15 feet long by 3.5 feet wide, it's designed to fully cover any type of home generator, including diesel, solar, gasoline, propane, and virtually any other type of generator.

2.0 out of 5 stars emp-protect family, homes and community. reviewed in the united states on november 4, 2013. as a homeowner with a medium sized pv solar system i was disappointed in the lack of practical application information to protect my system. i am already aware of the possibilities of harm to the system and really was looking for some ...

~~Amazon.com: Customer reviews: EMP - Protect Family, Homes ...~~

One EMP protection technique is known as electrical shielding. If an electrical cable includes a grounded shield, the electromagnetic pulse won't penetrate the shield. It will induce a current in the shield and release that current harmlessly into the ground. This is great for cables, but what about smaller devices, such as microelectronics?

~~EMP Protection - How To Plan For A Massive Magnetic Pulse ...~~

Most preppers already know that the basic EMP proof tool to protect your electric and electronic devices is a Faraday cage. They'll definitely use it. Since a box is still not enough to protect everything that might get broken by an EMP (solar panels included), here comes the question about EMP-proofing bigger spaces and even a whole building.
