This document (EN 10027-2:2015) has been prepared by Technical Committee ECISS/TC 100 "General issues", the secretariat of which is held by BSI. This European Standard shall be given the status of a national standard, either by publication of an identical

SVENSK STANDARD SS-EN-10027-2:2015
Steel classification according to EN 10027-2. Designation systems for steels.

Steel Number--EN-10027--Designation systems for steels
EN 10027 means that all these steel plates have names that described many of their physical qualities precisely Steels produced to EN standards - for example pressure vessel steels such as P355 or structural steels S275 have names that tell you a lot about the steel without having to look the details up in the relevant standard.

A Guide to EN-10027-Steel Names--Oakley-Steel
In addition to the descriptive steel grade naming system indicated above, within EN 10027-2 is defined a system for creating unique steel grade numbers. While less descriptive and intuitive than the grand names they are easier to tabulate and use in data processing applications. The number is in the following format: x.yzzz (zz)
