and in your life. It would be all so easy if you had a map to the Maze. If the same old routines worked. If they'd just stop moving "The Cheese." But things keep changing... Most people are fearful of change, both personal and professional, because they don't have any control over how or when it happens to them. Since change happens either to the individual or by the individual, Dr. Spencer Johnson, the coauthor of the multimillion bestseller *The One Minute Manager*, uses a deceptively simple story to show that when it comes to living in a rapidly changing world, what matters most is your attitude. Exploring a simple way to take the fear and anxiety out of managing the future, *Who Moved My Cheese?* can help you discover how to anticipate, acknowledge, and accept change in

This book presents important fields of research in public healthcare in India from an interdisciplinary and health systems perspectives. Discussing how the exchange of power between the health justice triad, viz., the State (judiciary as the arm of the State), legal and medical professions, and civil society, cumulatively shapes the outcomes of health justice for citizens, it provides insights into India ' s juridico-legal processes and of seeking justice in healthcare. It critically assesses civil society ' s counter-hegemonic role in bolstering justice in health care and examines the potential of transforming health care jurisprudence into health justice. Repositioning the social right to healthcare as integral to social citizenship and social justice, and opening avenues for inter-professional

and interdisciplinary power discourse in public health policy research, the book is of interest to academics, practitioners, students, researchers, and the wide academic community working in public health care issues broadly.

Few challenges facing the global community today match the scale of malnutrition, a condition that directly affects 1 in 3 people. Malnutrition manifests itself in many different ways: as poor child growth and development; as individuals who are skin and bone or prone to infection; as those who are carrying too much weight or whose blood contains too much sugar, salt, fat, or cholesterol; or those who are deficient in important vitamins or minerals. Malnutrition and diet are by far the biggest risk factors

for the global burden of disease: every country is facing a serious public health challenge from malnutrition.

The economic consequences represent losses of 11 percent of gross domestic product (GDP) every year in Africa and Asia, whereas preventing malnutrition delivers \$16 in returns on investment for every \$1 spent. The world ' s countries have agreed on targets for nutrition, but despite some progress in recent years the world is off track to reach those targets. This third stocktaking of the state of the world ' s nutrition points to ways to reverse this trend and end all forms of malnutrition by 2030.
