The Ethics of Writing - Gary L Stuart
Ethical Considerations can be specified as one of the most important parts of the research. Dissertations may even be doomed to failure if this part is missing. According to Bryman and Bell (2007) the following ten points represent the most important principles related to ethical considerations in dissertations:

Ethical Considerations - Research Methodology
Ethical Issues in Research. See also: Writing a Research Proposal. Ethics are broadly the set of rules, written and unwritten, that govern our expectations of our own and others' behaviour. Effectively, they set out how we expect others to behave, and why. While there is broad agreement on some ethical values (for example, that murder is bad), there is also wide variation on how exactly these values should be interpreted in practice.
