Desk phase (phase 1) The external evaluation team analyses the logic of the project / programme on the basis of official documents. If not already included in the terms of reference, a set of evaluation questions is proposed and validated by the reference group. The team then specifies the indicators and provides partial answers to the questions on the basis of existing information.

EN: Project and programme evaluations | Capacity4dev

The EU has developed and formalised a methodology for evaluating its external assistance in which priority is given to results and impacts. This page presents the methodological guidelines designed to facilitate the move towards an evaluation practice focused on programmes and strategies in EC Development Cooperation.

EN: Methodological bases and approach | Capacity4dev

Project and programme evaluations. The European Commission commissions evaluations of individual EU-funded projects and programmes during and after their implementation. Evaluations at the project or programme level are used to improve on-going operations and draw lessons from experience. Identifying successes as well as problems can help to design and manage better projects in the future.

Project and programme evaluations | European Commission

The guidelines present a systematic method for dealing with impacts, which ensures that all projects cover the essential points for decision-making. The evaluation guidelines are based on the YHTALI framework (Finnish Socio-economic cost-benefit framework for transport infrastructure) and they apply the YHTALI template for presenting the results.
