□The Student Exploration Sheet provided with each Gizmo was a great starting point. From there, I modified many of my questions to fit the key areas I wanted the students to understand by the end of the class. Towards the end of the year, one of my classes came up with the idea to see how many □pathways□ they could identify to create energy.

In the Sticky Molecules Gizmo, you will discover what causes this "stickiness." You will investigate a variety of phenomena that result from the attraction of molecules to one another. To begin, drag a dropper bottle of Water and a Petri dish (labeled Polarity) to the simulation area. Drag the dropper over the dish to add water.
