tracks of Victoria's High Country. This  
Second Edition has been revised and  
expanded to describe 133 plants from the  
montane, sub-alpine and alpine zones,  
categorising them into five easily  
distinguished groups: herbs, daisy herbs,  
low woody shrubs, tall shrubs and trees,  
and eucalypts. The guide features a

Updated edition of this illustrated guide to identification. Australia's bush and cities alike are dominated by eucalypts, in habitats as diverse as desert dunes and snowy mountain tops. Eucalyptus' uses are varied: from commercial harvesting for essential oil, timber or fibre, to species

# Download Free Field Guide To Eucalypts South Eastern Australia Vol 1

with spectacular flowers that are prized by gardeners as ornamental trees. Many of these species may superficially look alike. It is not possible to identify eucalypts from their leaves alone, but with a few simple aids to identification most can be tracked down. This easy-to-use book guides the reader through the key features: type of
