Fire Inspection Program The goal of Metro Fire's Inspection Program is to minimize risk of life and property loss from fire. We do this by eliminating hazardous conditions in businesses. The video below is for our business community to learn how to prepare for a fire inspection.

### Fire Inspection Program - California

The fire department is responsible for the safety and preservation of the built environment. We inspect new buildings for compliance with the plans that were approved to code. We inspect approved changes to existing buildings. We conduct periodic inspections of all business, public assembly, school and multi-family residential occupancies.

### Inspection Services - Fire Department - Pasadena, California

Clean your property as required prior to May 1 each year so that you pass the first fire department inspection thus avoiding a time consuming second inspection and a costly \$508 non-compliance fee. There is no need to call for an inspection at any time. Our computer system keeps track of all properties that are due for inspection. The appropriate inspector is notified that your property is due ...

### City of Oakland | Wildfire District Inspections

The Fire Inspectors assigned to the High Rise Section perform annual fire safety inspections for over 550 high rise buildings in the City. The authority to conduct these High Rise inspections is made pursuant to California Health

and Safety Code, Section 13217.

### **Inspections | Fire Department**

Fire Inspection Checklist - Process Street In this Process Street Fire Inspection Checklist, we cover how to run a fire safety inspection on a residential or commercial building. This inspection should be run annually at least. The more regular the checks, the higher the levels of safety provided.

### **Fire Inspection Checklist | Process Street**

Annual inspections by the fire department are performed to assess and mitigate potential fire- and life-safety hazards in buildings. Most fire departments provide you with a written report of any corrections that are necessary. These inspections vary in type and frequency, depending on the jurisdiction, city, and state.

### **How to Comply with Your Annual Fire Inspection**

The audit recommended the fire department create an inspector-only position to conduct inspections so engineers can have more time to review construction plans. The department aims to keep plan review turnaround at 10 working days but the backlog due to staff vacancies dragged plan review times to around 20 days.
