The company has grown to serve Australia, Italy and the United States as well as New Zealand by making a range of home appliances. If your Fisher and Paykel washer experiences problems it will emit a beeping sound, either every 5 seconds or every second. Depending on the beep and warning lights, you should be able to quickly diagnose the problem.

How to Troubleshoot Fisher Paykel Washers | Hunker

Overloading the washer. Try reducing your load size. Not enough detergent to hold the lint in suspension. Try using more detergent. Overdrying in a dryer can cause a build-up of static electricity in synthetic fabrics and cause them to attract lint. Try not to over dry items when using your dryer. Detergent residue. Over loading the washer.

Check that the machine isn't dirty from a previous heavily soiled wash. Fisher & Paykel recommends running a rinse cycle after a heavily soiled load to remove any residue. Try using a wash temperature appropriate to the soiled load - for example, warm for greasy marks, cold for muddy marks. Try increasing the wash temperature.
