psychologist-detective to confront his own fallibility. Lauren Teague is a beautiful, defiant, borderline-delinquent teenager when her parents bring her to Alex Delaware's office. But for all Alex's skill and effort, Lauren resists—angrily, provocatively. Reluctantly, the psychologist chalks Lauren up as one of the inevitable failures of a challenging profession. But years later, when Alex encounters Lauren as a stag party's featured entertainment, both doctor and patient are sticken with shame. And the ultimate horror takes place when, soon after, Lauren's brutalized corpse is found dumped in an alley. Alex disregards the advice of his trusted friend, LAPD detective Milo Sturgis, and jeopardizes his relationship with longtime lover, Robin Castagna, in order to pursue Lauren's murderer. As he investigates his young patient's troubled past, Alex enters the shadowy worlds of fringe psychological experimentation and the sex industry, and then into mortal danger when lust and big money collide in Southern California. Jonathan Kellerman's L.A. is evil, seductive, and unforgiving, and *Flesh and Blood* is mind-opening in its drama of a driven man's personal quest, breathtaking in its ingenious plot, filled with unforgettable characters, and topped off by a terrifying climax. This is suspense fiction at its finest.

Love Stronger Than Vengeance? A Betrayal... Everything Poppy has ever believed in is a lie, including the man she was falling in love with. Thrust among those who see her as a symbol of a monstrous kingdom, she barely knows who she is without the veil of the Maiden. But what she does know is that nothing is as dangerous to her as him. The Dark One. The Prince of Atlantia. He wants her to fight him, and that 's one order she 's more than happy to obey. He may have taken her, but he will never have her. A Choice.... Casteel Da ' Neer is known by many names and many faces. His lies are as seductive as his touch. His truths as sensual as his bite. Poppy knows better than to trust him. He needs her alive, healthy, and whole to achieve his goals. But he 's the only way for her to get what she wants—to find her brother Ian and see for herself if he has become a soulless Ascended. Working with Casteel instead of against him presents its own risks. He still tempts her with every breath, offering up all she 's ever wanted. Casteel has plans for her. Ones that could expose her to unimaginable pleasure and unfathomable pain. Plans that will force her to look beyond everything she thought she knew about herself—about him. Plans that could bind their lives together in unexpected ways that neither kingdom is prepared for. And she 's far too reckless, too hungry, to resist the temptation. A Secret... But unrest has grown in Atlantia as they await the return of their Prince. Whispers of war have become stronger, and Poppy is at the very heart of it all. The King wants to use her to send a message. The Descenters want her dead. The wolvern are growing more unpredictable. And as her abilities to feel pain and emotion begin to grow and strengthen, the Atlantians start to fear her. Dark secrets are at play, ones steeped in the blood-drenched sins of two kingdoms that would do anything to keep the truth hidden. But when the earth begins to shake, and the skies start to bleed, it may already be too late.
