According to the principle of the Five Ws, a report can only be considered complete if it answers these questions starting with an interrogative word: Who; What; When; Where; Why; Some authors add a sixth question, how, to the list. Each question should have a factual answer—facts necessary to include for a report to be considered complete.

The Standard Model of particle physics is the theory describing three of the four known fundamental forces (the electromagnetic, weak, and strong interactions, and not including the gravitational force) in the universe, as well as classifying all known elementary particles. It was developed in stages throughout the latter half of the 20th century, through the work of many scientists around the ...
