Friendships offer us room for personal growth, emotional support, and plenty of fun. Explore the meaning of friendship in a personal case study of two women who've been friends for years and have worked at having an enriching relationship that helps them through the many challenges of life. Authors Wendy Satin Rapaport and Sanda Neshin Bernstein are both clinical psychologists. In *Friendship Matters*, they use the example of their own friendship to explore the power of this connection. Friendship takes work, but it should be celebrated for the ways it can improve our lives and help us grow. Close

friends are lifelines—the people who help us through the worst days and who cheer us on during the best. We can learn to nurture our friendships most effectively by keeping a few principles in mind. For example, though similarities are naturally comforting, it is also important to respect and celebrate differences because these are rich opportunities to learn. Anchored by a dialogue between these two close friends, this wisdom-filled guide shows us how to have more meaningful relationships. With good friends by our side, anything is possible.

and loving others who are not your family members. The good thing about friendship is that it can be established even at a young age and it has the power to defy age barriers. The old can be friends with the young, and men can be friends with women and vice versa. When in the company of close friends, we tend to open ourselves a lot more and communicate even our darkest secrets, fears and anything we feel like sharing. Friends are like creatures we do not share a drop of blood with, yet they hold the closest spot in our hearts. Richard Obede is the director of public relations and a board

Today, friendship has again become a desirable framework for political interaction. In *Friendship Reconsidered*, P. E. Digeser contends that our rich and varied practices of friendship multiply and moderate connections to politics. Along the way, she sets forth a series of ideals that appreciates friendship's many forms and its dynamic relationship to individuality, citizenship, political and legal institutions, and international relations. Digeser argues that, as a set of practices bearing a family resemblance to one another, friendship calls our attention to the

importance of norms of friendly action and the mutual recognition of motive. Focusing on these attributes clarifies the place of self-interest and duty in friendship and points to its compatibility with the pursuit of individuality. She shows how friendship can provide islands of stability in a sea of citizen-strangers and, in a delegitimized political environment, a bridge between differences. She also explores how political and legal institutions can both undermine and promote friendship. Digeser then looks to the positive potential of international friendships, in which states mutually strive
