This book, written by A. Premchand, offers a comprehensive review of fiscal policies and their implications for budgeting and expenditure controls. It provides an in-depth discussion of techniques, procedures, and processes of budgeting with illustrative material drawn from the experiences of industrial and developing countries.

This text is not about filling in income tax forms-it provides students with strategies for building a successful personal financial plan. This hands-on approach equips students with the expertise they need to make informed financial decisions. The most recent coverage of rules and regulations that govern and affect financial planning have been integrated throughout this new edition, as well as coverage of recent events such as the financial crisis.
