Fundamentals of Financial Accounting: Phillips, Fred ...
Abstract. 'The fundamentals of financial accounting' explores the basic ideas of financial accounting: the way accounting actually works, the logic behind the double-entry recording system, and the contents of the basic financial statements (balance sheet, income statement, and cash flow statement). The following questions are addressed: What does a balance sheet try to show?

Financial Accounting For Mbas 5th
Edition Solutions

Overview. The main objective of this subject is to obtain a practical understanding of financial accounting and the process behind the preparation of financial statements for single entities. These statements are prepared within a conceptual and regulatory framework requiring an understanding of the role of legislation and of accounting standards. The need to understand and apply necessary controls for accounting systems, and the nature of errors is also covered.
