God's War is the first book in a sci-fantasy series about bounty hunters, magical bugs and an unending holy war, Bel Dame Apocrypha. For a book about bug-powered magic, it was surprisingly tame on the bug side of things. Yes, this is my first complaint because I had hoped for more, far more detail.

On a ravaged, contaminated world, a centuries-old holy war rages, fought by a bloody mix of mercenaries, magicians, and conscripted soldiers. While protecting the daughter of a Ras Tiegan Diplomat, Nyx is attacked by a group of assassins. Nyx survives, but begins to suffer from a strange, debilitating condition that nobody can identify. Caught up in a whirl-wind of intrigue involving Bel Dam Assassins plotting against the Queen, Nyx must learn who the rouge Bel Dam is, and find a cure for her illness, while avoiding the wrath of the queen she is trying to protect. The danger that swirls around her may have finally become too much, and Nyx's colleagues and friends began to die. Will Nyx be next?

After all, she's trying to navigate an apocalyptic world full of giant bugs, contaminated deserts, scheming magicians, and a centuries-long war that's consuming her future. Managing her ragtag squad of misfits has required a lot of morally-gray choices. Every new job is another day alive. Every new mission is another step toward changing a hellish future--but only if she can survive.

A stunning new epic fantasy from two-time Hugo Award winner Kameron Hurley. On the eve of a recurring catastrophic event known to extinguish nations and reshape continents, a troubled orphan evades death and slavery to uncover her own bloody past... while a world goes to war with itself. In the frozen kingdom of Saiduan, invaders from another realm are decimating whole cities, leaving behind nothing but ash and ruin. At the heart of this war lie the pacifistic Dhai people, once enslaved by the Saiduan and now courted by their former masters to provide aid against the encroaching enemy. Stretching from desolate tundra to steamy, semi-tropical climes seething with sentient plant life, this is an epic tale of blood mages and mercenaries, emperors and priestly assassins who must unite to save a world on the brink of ruin. As the dark star of the cataclysm rises, an illegitimate ruler is tasked with holding together a country fractured by civil war; a precocious young fighter is asked to betray his family to save his skin; and a half-Dhai general must choose between the eradication of her father's people or loyalty to her alien Empress. Through tense alliances and devastating betrayal, the Dhai and their allies attempt to hold against a seemingly unstoppable force as enemy nations prepare for a coming together of worlds as old as the universe itself. In the end, one world will rise - and many will perish. File Under: Fantasy [ Orphaned Child | World at War | Blood Magic | The Fluidity of Gender]

"[A] thought-provoking space opera." -Kirkus Reviews "One of the most unusual and powerfully disturbing space operas we're likely to see this year." -Chicago Tribune Set within a system of decaying world-ships travelling through deep space, this breakout novel of epic science fiction follows a pair of sisters who must wrest control of their war-torn legion of worlds--and may have to destroy everything they know in order to survive. Somewhere on the outer rim of the universe, a mass of decaying world-ships known as the Legion is traveling in the seams between the stars. Here in the darkness, a war for control of the Legion has been waged for generations, with no clear resolution. Zan wakes with no memory, prisoner of a people who say there are her family. She is told she is their salvation, the only person capable of boarding the Mokshi, a world-ship with the power to leave the Legion. But Zan's new family is not the only one desperate to gain control of the prized ship. Zan finds that she must choose sides in a genocidal campaign that will take her from the edges of the Legion's gravity well to the very belly of the world. In the tradition of Iain M. Banks's Culture novels and Roger Zelazny's Chronicles of Amber, Kameron Hurley has created an epic and thrilling tale about tragic love, revenge, and war as imagined by one of our most celebrated new writers.

From the Hugo Award-winning author of The Stars Are Legion comes a brand-new science fiction thriller about a futuristic war during which soldiers are broken down into light in order to get them to the front lines on Mars. They said the war would turn us into light. I wanted to be counted among the heroes who gave us this better world. The Light Brigade: it's what soldiers fighting the war against Mars call the ones who come back...different. Grunts in the corporate corps get busted down into light to travel to and from interplanetary battlefronts. Everyone is changed by what the corps must do in order to break them down into light. Those who survive learn to stick to the mission brief--no matter what actually happens during combat. Dietz, a fresh recruit in the infantry, begins to experience combat drops that don't sync up with the platoon's. And Dietz's bad drops tell a story of the war that's not at all what the corporate brass want the soldiers to think is going on. Is Dietz really experiencing the war differently, or is it combat madness? Trying to untangle memory from mission brief and survive with sanity intact, Dietz is ready to become a hero--or maybe a villain; in war it's hard to tell the difference. A worthy successor to classic stories like Downbelow Station, Starship Troopers, and The Forever War, The Light Brigade is award-winning author Kameron Hurley's gritty time-bending take on the future of war.
