farming to environmental sciences to the latest developments in biotechnology and genetics. The dictionary provides:

- Approximately 15,000 terms
- Extensive cross-referencing of closely related entries
- Definitions include often-used variants of the principal meaning

More than just a compendium of terms, this dictionary presents clear, concise definitions in traditional dictionary entry format. From agroecology to wildlife biology, the CRC Dictionary of Agricultural Sciences establishes common ground between the various practitioners involved in agriculture, making
