This guide is directly linked to the syllabus with every single dot point of the HSC Business Studies syllabus appearing in the margin of the book. You can write in the guide, so your study is focused and your notes are structured!

Integrate technology into four content areas (language arts, science, social studies, and math) by using Microsoft Excel in your classroom.

Susan Brooks-Young, author of ISTE's bestselling *Making Technology Standards Work for You*, offers time-crunched administrators a suite of tools to enhance their productivity. The *Electronic Briefcase* serves school administrators on two levels, providing resources equally useful to those proficient with technology and to those just getting started. Included on the accompanying CD-ROM are more than 35 templates organized around the NETS for Administrators that will help education leaders complete everyday administrative tasks and make their workload more manageable. FEATURES Basic instruction for file management and productivity software CD-ROM templates for classroom observations, staff meetings, budget planning, evaluation rubrics, and more Tools for creating a letterhead, memos, flyers, discipline referrals, and certificates

answers with Board Scheme of Valuation • Hand written Toppers Answers for exam-oriented preparation • Includes Solved Board Model Papers.

Diane Shorrocks-Taylor School of Education, University of Leeds, UK  
In September 1998, a conference was held at the University of Leeds entitled ' International comparisons of pupil performance: issues and policy '. It was arranged by two groups within the School of Education at the University, the newly formed Assessment and Evaluation Unit and the Centre for Studies in Science and Mathematics Education. The joint interest in international comparisons of performance had itself arisen from earlier involvement in a follow-up study of the 1995 TIMSS work in England, reported in a later chapter in this book, in which the TIMSS assessment outcomes were studied alongside the outcomes from the National Curriculum testing programme in England. Some of the results of this investigation had proved both interesting and challenging so the decision was made to promote wider discussion of some key issues by inviting contributors from all over the world to a meeting the major aims of which were to promote an exploration of : - the theoretical foundations of international comparative studies of student performance; - the practical problems of carrying out such studies; - the appropriateness of the assessment models and approaches used in international comparisons; - the role of international comparative studies in raising standards of student performance; - and how international studies affect the shaping of national policy on education.
