Guided Imagery for Younger Children - Health Powered Kids

Guided imagery involves envisioning a certain goal to help cope with health problems or the task or skill a child is trying to learn or master. Guided imagery is most often used as a relaxation technique that involves sitting or lying quietly and imagining a favorite, peaceful setting like a beach, meadow or forest. Studies have shown that guided imagery can help the mind and body relax.

Guided Imagery for Kids - CHOC Children's, Orange County

works for your child. Guided imagery should be done in a quiet environment, away from interruptions, TVs and electronics. Playing soft, relaxing music can help shut out background noise. And using the same music each time can help create a sensory reminder for the body to relax. Before starting a guided-imagery script, guide your child through a

Guided Relaxation Scripts - Green Child Magazine

Guided imagery is a mindfulness meditation technique to help the listener think of something peaceful and relaxing. It is often used at the start of a longer meditation, sometimes to set up yoga nidra. For kids, it is often the whole relaxation period at the end of a yoga session (savasana), or during a short lesson on mindfulness.

Free Mindfulness Meditation Scripts for Kids [Video and Tips]

Subscribe to access the library and you'll be able to browse the 30+ topics to see which guided meditation will most benefit your child. Once you choose a guided meditation script for your child, you may want to read it to yourself to find the rhythm prior to reading it aloud to your child. Once you're ready and your child is relaxed, simply read it in a calm voice, pausing to let the words and feelings sink in. Links to Sample Guided Meditation Scripts
