Ten new and important essays on design cover Modernism's fortunes in Germany, Italy, Sweden, Britain, Spain, Belgium and the USA; they range in subject matter from world fairs and everyday domestic objects to American West coast architecture and French and Italian furniture. With essays by Tim Benton, Gillian Naylor, Penny Sparke, Wendy Kaplan, Clive Wainwright, Martin Gaughan, Guy Julier, Mimi Wilms, Julian Holder and Paul Greenhalgh. "The object of this book is to diffuse myths. If modernism has, in the past, been both absurdly praised and absurdly damned, Modernism in Design seeks to lift it out of this cycle, and to demonstrate that the modern movement could offer neither Jerusalem nor Babylon ... In this, the book succeeds admirably."—"Designer's Journal "While this collection of essays is aimed primarily at design historians and students of design history, hard-pressed practising designers and architects should make room for it on their bookshelves."—"Design

The Interior Design Directory is a comprehensive guide to the very latest in materials technology, which has entered a whole new dimension in the last few years. Alongside tried-and-tested surfaces and finishes that have graced our interiors for centuries - fine hardwoods, polished stone, carpets and rugs - are exciting innovations that stretch our understanding of what a material can be. Concrete that is light and translucent, fabric that responds to its environment by lighting up, tiles that can be moved from place to place at will: what it is, where to get it, what to do with it - each material has its own comprehensive entry enabling you to fill your home with the very best of what is on offer.The book is divided into four parts, opening with a section on classic natural and composite materials including wood and stone, brick, ceramic, and carpet. The next two sections deal with crossovers from industrial to domestic - building materials that have been refined and updated for home use from glass, concrete and metal to rubber and tiles. The final section is devoted to sustainable materials, as we are all increasingly aware of the environmental impact of our choices, and looks at wood alternatives, eco glass, recycled fabric and natural textiles. Throughout the book, smart design, photographs of contemporary interiors and detailed close-ups of each material make this as visually inspiring as it is unfailingly practical.

Mary Adams, you're a fool!" The single dimple in a smooth red cheek smiled in answer. "You're repeating yourself, Jane -" "You won't give him one hour's time for just three sittings?" "Not a second for one sitting -" "Hopeless!" Mary smiled provokingly, her white teeth gleaming in bstinate good humor. "He's the most distinguished artist in America -" "I've heard so."

In a world where people still oppress and enslave one another, and rulers are still afraid or unwilling to give freedom and equality to those they rule, the Book of Exodus has a message that many need to hear. Following the series pattern, detailed interpretation and commentary on the Bible narrative are supported by special notes on the historical and literary background, and on the importance of exodus to New Testament writers. The ususal study material includes suggestions for research and discussion, and topical illustrations underline the teaching of Exodus.

Jadlian Tata punya ?sahabat? baru, Nilby, namanya ? Bagaimana, ya, kalau Tata dan teman-temannya ikutan kontes kucing? Kira-kira, Nilby menang nggak, ya? [KPKK, DAR Mizan, Cerita, Anak, Indonesia]

"Witches are gathering." When most people hear the word "witches," they think of horror films and Halloween, but to the nearly one million Americans who practice Paganism today, it's a nature-worshipping, polytheistic, and very real religion. So Alex Mar discovers when she sets out to film a documentary and finds herself drawn deep into the world of present-day witchcraft. Witches of America follows Mar on her immersive five-year trip into the occult, charting modern Paganism from its roots in 1950s England to its current American mecca in the San Francisco Bay Area; from a gathering of more than a thousand witches in the Illinois woods to the New Orleans branch of one of the world's most influential magical societies. Along the way she takes part in dozens of rituals and becomes involved with a wild array of characters: a government employee who founds a California priesthood dedicated to a Celtic goddess of war; American disciples of Aleister Crowley, whose elaborate ceremonies turn the Catholic mass on its head; second-wave feminist Wiccans who practice a radical separatist witchcraft; a growing "mystery cult" whose initiates trace their rites back to a blind shaman in rural Oregon. This sprawling magical community compels Mar to confront what she believes is possible-or hopes might be. With keen intelligence and wit, Mar illuminates the world of witchcraft while grappling in fresh and unexpected ways with the question underlying all faiths: Why do we choose to believe in anything at all? Whether evangelical, Pagan priestess, or atheist, each of us craves a system of meaning to give structure to our lives. Sometimes we just find it in unexpected places.
