Jimi Hendrix had a diverse heritage. His paternal grandmother, Zenora "Nora" Rose Moore, was African American and one-quarter Cherokee. Hendrix's paternal grandfather, Bertran Philander Ross Hendrix (born 1866), was born out of an extramarital affair between a woman named Fanny and a grain merchant from Urbana, Ohio, or Illinois, one of the wealthiest men in the area at that time.

Jimi Hendrix was an altogether different sort of musician. Hendrix's impact on the British and world music scene was extraordinary, particularly as he was active for only four years before dying from an overdose aged just 27. He redefined the electric guitar in his own image and became one of the most successful, influential and charismatic musicians of his era, whose appeal linked the ...

On September 18, 1970, American musician Jimi Hendrix died in London at the age of 27. One of the 1960s' most influential guitarists, he was described by the Rock and Roll Hall of Fame as "arguably the greatest instrumentalist in the history of rock music.". For some days prior to his death, Hendrix had been in poor health, in part from fatigue caused by overwork, a chronic lack of sleep, and ...
