<i>History of Africa : Kevin Shillington : Free Download ...</i> Shillington acknowledges humanity's African origins, but considers the early folks were probably brown (not the de rigueur black); that ironworking was probably introduced via the Maghrib (rather than diffusing from black Meroe); considers Napata and Meroe to have been civilized from Egypt (rather than the other way around); and does not insist that the ancient Egyptians were all dark Africoids.

There is a paradox about Africa: it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. The History of Africa redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

Luka Jantjie is today a largely forgotten hero of resistance to British colonialism. His place in South African history has tended to be overshadowed by events elsewhere in the region. This book attempts to redress the balance by recording his remarkable story. In 1870, at the beginning of the Kimberley diamond mining boom that was to transform southern Africa, Luka Jantjie was the first independent African ruler to lose his land to the new colonialists, who promptly annexed the diamond fields. His outspoken stand against the hypocrisy of colonial 'justice' earned him the epithet: "a wild fellow who hates the English". As the son of an early Christian convert, Luka was brought up to respect peace and non-violence; his boycott of rural trading stores in the early 1890s was perhaps the earliest use of non-violent resistance in colonial South Africa. His steady refusal to bow to colonial demands of subservience intensified the enmity of local colonists determined to 'teach him a lesson'. As many of his people succumbed to colonial pressures, Luka was twice forced to take up arms to defend himself and his people from colonial attacks. His life ended in a dramatic and heroic last stand in the ancestral sanctuary of the Langeberg mountain range; its tragic consequences stretched far into the next century.

Tells the story of two popular revolutions in Ghana, both of them led by the same man, Flight Lieutenant Jerry Rawlings, now Head of Ghana's government, the Provisional National Defence Council. The book includes interviews with many of the key players in the drama, including Rawlings himself.

The mobilization of local ideas about racial difference has been important in generating, and intensifying, civil wars that have occurred since the end of colonial rule in all of the countries that straddle the southern edge of the Sahara Desert. From Sudan to Mauritania, the racial categories deployed in contemporary conflicts often harken back to an older history in which blackness could be equated with slavery and non-blackness with predatory and uncivilized banditry. This book traces the development of arguments about race over a period of more than 350 years in one important place along the southern edge of the Sahara Desert: the Niger Bend in northern Mali. Using Arabic documents held in Timbuktu, as well as local colonial sources in French and oral interviews, Bruce S. Hall reconstructs an African intellectual history of race that long predated colonial conquest, and which has continued to orient inter-African relations ever since.

The new, fully-updated edition of the acclaimed textbook covering 200 years of African history A History of Modern Africa explores two centuries of the continent's political, economic, and social history. This thorough yet accessible text help readers to understand key concepts, recognize significant themes, and identify the processes that shaped the modern history of Africa. Emphasis is placed on the consequences of colonial rule, and the links between the precolonial and postcolonial eras. Author Richard Reid, a prominent scholar and historian on the subject, argues that Africa's struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century, the effects of which are still felt in the present day. The new third edition offers substantial updates and revisions that consider recent events and historiography. Greater emphasis is placed on African agency, particularly during the colonial period, and the importance of the long-term militarization of African political culture. Discussions of the postcolonial period have been updated to reflect recent developments, including those in North Africa. Adopting a long-term approach to current African issues, this text: Explores the legacies of the nineteenth century and the colonial period in the context of the contemporary era Highlights the role of nineteenth century and long-term internal dynamics in Africa's modern challenges Combines recent scholarship with concise and effective narrative Features maps, illustrations, expanded references, and comprehensive endnotes A History of Modern Africa: 1800 to the Present, 3rd Edition is an excellent introduction to the subject for undergraduate students in relevant courses, and for general readers with interest in modern African history and current affairs.
